Father, Son Charged in Plot on Nixon

NEW YORK, Nov. 9 (AP)—A father and son, both from Yemen, were charged tonight with conspiracy to murder President-elect Richard M. Nixon, police headquarters said.

Police said the two men were arrested in a tenement in Brooklyn's East New York section about 8 p.m.

Police also confiscated an M1 army rifle and a carbine and 20 to 25 .30-caliber shells to go with them.

They identified the two men as Ahmed Rageh Namer, 46, who came to the United States 13 years ago but never took out citizenship, and his son, Abdo Ahmed Namer, 20, who had been here two years.

Two other men also were being questioned. They were not identified.

Police headquarters said the father and son also were charged with criminal solicitation in the first degree and possession of the two weapons. The criminal solicitation charge was not immediately explained.

Details of the alleged plot were not available either.

The arrests were first disclosed by Elliott Golden, acting district attorney in Brooklyn. He said only that the arrests were made in East New York, which is a Negro slum.

The Secret Service, charged with guarding residents, immediately confirmed the arrests and said they were made on warrants issued by Golden's office.
