

PH Re Broadcast to San Antonio today and Army Intel. 112 INCT and LHO BW 12/14/77

As I'd hope I did turn one person on. I regret I was not prepared to tape. He says apropos of my reading the FBI's TT that the Air Force unit at McDill (?) Field was readied to strike against Cuba. That this is the kind of possible consequence of the interest or how close the spooks came to accomplishing an attack. I do not know what he has to support this. He appeared quite reasonable and solid as he spoke. The man who has the show recognized the voice, knows how to reach him and will ask him to write me further. I was also able to ask that if anyone still in the San Antonio area knows anything relevant I'd like to know. If I get anything of any consequence I'll let you know. It seems probable to me that the alert to the planes might well be a norm under the circumstances rather than an exceptional situation. But if he is right about Cuba, given the content of the TT, it cannot just be discounted out of hand. Best, BW 12/14/77
