Mr. George Meely, Jr. The Times-Piceyune 3800 Howard Ave., New Orleans, Is.

Dear Mr. Healy,

Please excuse the long delay in thanking you for your courtesies. My trip was extended by a successful investigation in Dalles and I returned ill and later than I had planned.

You were, really, helpful, and I do appreciate it. Access to your library is particularly valuable. Mr. Nordelle has been both kind and affecient.

I suspect that had you read some of the things I saw there, such as the sulogizing of a bomber as a man dedicated to freedom and democracy (shuder), you would not have written some of the stories that followed.

In my following up on the Guben Power story, which is far from complete, I note the only picture not in the Miemi popers is that of Morejon. Bill Delzell, who was then with the "Friends of Democratic Cube", is still in New Ocleans, I understand, and might identify "Joseph Moore" ("Osweld in New Orleans," page 101) as Morejon. However, I understand he is accomplished at lying as he and other Indians are fluent in languages.

Should there be enything you would like from my files or any questions you mey have, I expect to be back in New Orleans the first weak of next month.

Again, my sincere thanks.

Respectfully,

Herold Weisberg
