Dear Randy,

The HSCA interview report on what Nathan Pool said about the finding of the hospital bullet is interesting and I'm glad to have it, thanks. HSCA Counsel B. Lawson is quite wrong on p. 3 in saying that "The bullet was visible on top of the stretcher." As I recall his testimony it is that the bullet fell from underneath the mattress.

That Pool was previously unknown is another tribute to the Specter.

It does not require any of the HSCA's records to establish that it intended another whitewash. It was so obvious on my first visit by invitation I warned Sprague what would happen to him, I accepted his second invitation, another waste of time, and I had no more to do with them. Other than exposing them when they did ~~badly~~ badly.

Until your letter I was not aware that there are ongoing hearings. From a fine story about Major Newman in today's Post I take it that John Conyers, for whom I have a very high regard personally and professionally, is holding oversight hearings. I could have been of help but nobody spoke to me.

Don't underestimate those Liftonites. They react to bludgeons only. You refer to x isolating them. Good luck. But Lifton has too much to lose so he will not stop.

I'm sorry my NEVER AGAIN! ~~is~~ not out. It could help much.

I'm not at all sure that all that is attributed to Tomlinson is what he said and I am sure that what he did say was unwelcome to Specter who could have learned of Pool if he had not and wanted as little as possible of T's. testimony to be credited.

Many thanks and best wishes,

filed Pool,  
Nathan
