Hal Verb P.O.Box 421815 San Francisco, CA 94142-1815

Dear Hal,

Along with your welcome large package of 12/21, which made fine time getting here, side from other mail I am fortunate enough to have two generous but smaller packages. I've skimmed yours and the others and read what I'll get to, very little of the total volume.

I can weit for your Dallas report. You confirm what I'd expected.

I've Wot followed the acoustics contriversy and doubt I can offer a dependable opinion. I believe I had a record I can no longer find saying that the dubs were air tapes and that made cross-talk possible. If the work was done from the original dictabelt, that becomes irrelevant.

From someone else I got a transcript of a Larry king show with a guy I've highlighted, Hal Korff of Total Research of Palo Alto. What interests me most of all, and you'll see much wrong with his contrivance, is whether, he used my books, which dvance no theories, and if he used any official documents, to what degree and from what dource. If you'd care to write him, that might be better than me. But if not, please send me his address that I proume you can get easily. If he'll give you a list of the books and pictures, that would be fine. Do not mention Itek but I've Very interested to know it he used it or the Willis slides or the Moorman that Mack is working with. He show a man on the knoll, at two different places, too.

I rush to try to get all the mail answered in the short time I have before my working day winds down, the rest in the morning, to get them in the pre-Xmas mail.

Many thanks and we wish you the best hiliday,

Other side a page of NEVER AGAIN, NA,
