

Dear Russ,

1/22/92

All fingertips split, typing with one that hurts least. Thanks for the cassette, now a duplicate.

None of their ideas and solution theories any good. I agreed to be interviewed about 4 yrs ago only on promise there would be no theories. If this interests you maybe we can go into it later. Especially if you can get here with those interesting things you refer to.

Oliver Stone is a clever, mendacious, commercializing, exploiting monster, details later, who used the JFK assassination as the vehicle for saying what he wanted to say about Viet Nam. I am the one who started the exposure when he ignored my warning that he could produce only a fraud and a travesty from Garrison's book.

Helluva book in this. I'm not up to it but I've more than enough for Hawk: Oliver Stone's Mardi Gras Solution to the JFK assassination.

Do you have a tape or a cassette of his speech an questions? I planted the one that asked him how he could proceed with the movie after being told that he could not believe a word Garrison said. He made no answer, talking about something else. Not reported.

I was taped to be on Nightline last night. I can't help getting up vdry esrly so I have to be abed by 8. Lil fell asleep so I know nothing about what was aired. And would like to. I'm keeping a file on his movie for the historical record if you ever see anything interesting.

He was not interested in fact. His movie is based on the nutty theories and most of those he consulted are conspiracy nuts. The few others are no nuts but are honked on baseless theories.

Best,

Dear Harold,

I'm sorry to be so late in sending this to you, but here it is. It's the full five episodes of that series that ran on A & E. Unfortunately, it's not a good copy -- the colors are off. If you need a better copy let me know and I'll try to have one done at higher speed which might give better resolution. I'd be interesting to know what you think about the ideas they present. By the way, you're on the first episode and the last.

I heard some of Oliver Stone's address to the Washington Press Club. He talks like he discovered this stuff and no one knew about it until now.

Lots of interesting things to tell you, but I'll close now to get this in the mail finally.

Russ
