

2/30/70

Dear Russ,

Sunday you told me you had mailed me certain things. This is Thursday. It hasn't arrived. I also asked for other things that become more important daily which also haven't arrived.

Is it possible you forgot to mail it? If you did, I hope you a) insured it and b) had a return address. My letters to WCFL, for example, have been returns stamped "unknown".

I especially want a copy of your copy on which you wrote a note about it just having been declassified within the past six months. I have a hunch this is the FBI report from which he cut the top, including the FBI identification. You can understand what that would be on TV! I can get aired if I can get out there. My efforts including asking the press of Col College to invite me to address the student body, with or without a Skolnick confrontation. With transportation, I can arrange a pad. I have a suit ready to file as soon as I get there.

Because of the press of time, I do ask you to duplicate what you sent. If it arrives before you've had time to do it, I'll place a person-to-person call to Lita. Do not accept it. I'll reverse it to make sure. If I have to talk to you, I'll not use her name. And if I do get to go to Chicago, I'll give you the address there to which to send.

If you have been busy and forgotten, please do not tarry longer. This may be more important than you can understand.

Best,
