Hecent weeks have been difficult for me, the one now ending in heretener. There had been suided burdens saide from the one you arrenged. None are pleasant, none should be, all interfere with constructive work but are, in my belist, essential. The past week has seen a significant, preeddint victory over the corrust government, especially Mitchell and Maindenst, preedded. That there has to date been no medie strention to it is only partly a consequence of Skolnick's whoring. I turned down natwork TV yesterday, hope not to lose it, in order to accomplish what I did today. I hope you will know that reat wi am permitting out soon shough. In time you will know the reat, the moment, ¹ have not the time, disposition or should to go into the rest, at the moment, ¹ have not then the time, disposition or should to go into the various really significant maintent the time, disposition or should to go into the various really significant mentation the time, disposition or should to go into the various really significant in the the time, disposition or should to go into the various really significant and the time, disposition or should to go into the various really significant indicates.

with the foundation so carefully and rainfully laid, at some cost, ever e fong partod of time, it an immediately proceeding with more, de belits wen of some fatent rather that where the mores, the mores of whom are male.

So this will be more comprehensible to you, I have forced the Department of Justice to give me what they have suppressed, what they have denied me for a year, what they even denied existed. Needless to may, having fellen over at the sight of Devid, Colleth was not about to yick up stones for him, so they did es they could to waste time for me. Todey I completed examination of the sensetional material, drew up a list of what't i vant copies of, and will without doubt get all but two. I rether hope they are stupid enough to deny me alther or both of these, for either will fructrate the out-of-court settlement they beffed. And when I say begged, I mean over Mitchell's name, too. They are now in the position where they are worse off if they dany than if they supply.

The real purpose of this letter, when there should be no need for it and when I am more tired, physically and emotionally then I can recall (do you know the stench of guts - then you know the past week), is to tell you that we any to be attend of fitting response for trust, snything but friend-like behavior. If you sre in distress, then I invoke Coss wilde's definition of friendship and to obligations. If yoursers no distress, mince no words, I find this unconscionable, now can i account for the failure of whet you said you had already sent to arrive, of for the absence of what you then said you used immediately sent to strive, of for the absence of what you then said you would send immediately or you silence at my inquiry?

And suppose I can get in a position ruch is notified work at a spicable cuarleten who threatens so much harm, the danger he poses to so much work at such great cost? How can I confront and leave a record of you that will not define you? You hardly know me if you think I fear confronting him in any way-or the you? You hardly know me if you think I fear confronting him in any way-or the you? You hardly know me if you think I fear confronting him in any way-or the you? You hardly know me if you think I fear confronting him in any way-or the you? You hardly know me if you do not with tougher and more powerful edbe under way before you can get this. The other, partly drafted a week ago, was interrupted by success. You do not know me et ell if you do not understand that interrupted by success. You do not know me et ell if you do not understand that interrupted by success. You do not know me et ell if you do not understand that interrupted by success. You do not know me et ell if you do not understand that interrupted by success. You do not know me et ell if you do not understand that interrupted by success. You do not wight say with matterver fact "nhave. I lack interrupted by success you have prevented it.

The difference in our ages may not make it easy for you to understand, but my present concern is for you and a difficulty you may not anticipate in later living with all of this. Test is more than prologue. It sometimes is conscience's albetross. I would not mave you Siles Marner, Sincerely,
