
In summary, we can conclude with reasonable confidence that Oswald was a CIA agent who was sent to the Soviet Union on a special mission. And there is little room for doubt that he was set up by some entity as a fall guy in the JFK assassination plot. Whether or not Oswald was knowingly part of the plot remains uncertain. He could have been involved in another covert operation unrelated to the Kennedy assassination, but have been co-opted by the real conspirators.

The evidence that Oswald was linked with Guy Banister and anti-Castro Cuban operations, and Clay Shaw and David Ferrie, is virtually unassailable.

We will now address what is considered by many to be one of the most important aspects of understanding the mystery of the JFK assassination: Oswald's trip to Mexico City.
