Dear Ed.

「「「「」」というないで、「」」

While brushing my teeth preparatory to bed last night I heard a brief item on the late TV news that Skolnick is filing or has filed a suit against the Archives for suppressing the threat against the President by Valle in 1963, complete with the details in my book!

Now the one place such a suit cannot be laid is against the Archives. That basterd doesn't know it, but everything federal in origin that he stole from ms dens from the Archivesi There is but a custodial role in slmost all cases, and in these exceptions I am going through the great tedium of preparing for suit.

I called a "bicago reporter friend who knew for a long while I was working on Valle, having asked his help on one screet. He had interviewed and aired Skolnick, who gave him the impression we were the closest and the greatest buddles, etc.

Skolnick cannot possibly have a suit under the Freedom of Information Act, whichI've had to study. The net effect of what he has done is to destroy the credibility of all of us, undermine all serious efforts, and to give a credibility to the government it cannot get in any other way.

So, aside from being a crook, he is by role if not fect, what he accuses everyone else of being, an "agent". He is the kind of man who will become caudidate for the kind of writing in which you are engaged.

however, this makes sense of Ed Lucht's and the station's behavior. Their quid pro que becomes apparent. I'd like you, ppdesse, to try and find out if they are weaving their own laural wreaths for me.

I think this will require that I sue, not only because I have been demaged but to end us burt this ego-tripper has caused and will yet cause.

I hope this isn't too incomprehensible. The sun is not yet up and I've got to leave for Washington for a brain-wave and other medical tests, etc.

But how ironic it is, I file legitime and serious suit sgainst the Justice Bapt, which is responsible for the suppressions, and it is totally suppressed, end this where comes slong, does nothing and ees that wrong (saidling the "ustice Dept) and gets a nationwide play! It is just like them with the Mafia: everyone slas is responsible only not Justice, whose abdications make the Mafia and the cirruption not only possible but the way of life.

I cannot but wonder is Skolnick more than an ego-tripper?

Thanks for anything you can do. Got the elip and the returned carbon.

Sincerely,
