

11/24/67

Dear Hal,

By working solidly since returning, including all holidays, I've caught up on accumulated letters and gotten to hear Liebler's Stanford tape Whites gave me. Very helpful. Jave notes on where things are, some wild things. In with it was a typed sheet and a half from KGO 2/22/67, Frank Herringway newscast, quoting Liebler. I'm anxious to have whole thing as it relates to L for he said "The Commission and the FBI were quite aware of the fact that Ferris had flown this aeroplane over to Texas the day of the assassination, and that was checked out as thoroughly as anything can be checked out. There's a stack of FBI reports on this investigation about a foot thick...." four sheets, for your information, can this be a killer because Ferris never flew out of NO that day and was, in fact, with the FBI agents but Liebler's reports didn't indicate it. I may be confronting him again. I did on the Les Crane show, where they changed the format on me and broke a promise not to go into what I saved for the 'vne show (which they called "a magazine, or something") Although this gave Liebler the semblance of points, he must have been tipped off, for he 'd never have raised that question unless he is nuts. Anyway, he refused to confront me the next day, live, when I dare him on KUTV and on the Oswald literature printing. Gave Jim Paul's memo, Please ask him to send me another and a statement of what I owe him. I am anxious to get this KGO tape because I may have an unusual opportunity to use it soon, maybe end Jan. also, if speech at UC can be for Feb might be better. Please let me know. May have paying invite to Fla for radio, TV and speeches early or middle January.

Blazewick news? I've briefed Art Kevin, KUT, Hollywood (5515 Melrose) on story of false Oswald. It is he who is responsible for Garrison's approach and the tapes of it. Jim Rason can get one from him but has my entire file on this and will be going further into it.

Gotta finish in two minutes to hear radio program with Link Thompson. If any paper used my UPI story, please let me know. I've no knowledge of any. Remind 'one I'm to get Charley Banks film. I've heard nothing further from him and haven't had time to write. His LA men never answered any of the messages we left, made no appointments, and, then I saw some one else at CBS, phoned to say he'd tried all week to get in touch with Jon without success. Jon also did not make the arrangements for a place for me to stay LA. What he did besides spend money from unster-mined sources I do not know.

Thanks for everything. Had note from Herb when lamenting attention to Thompson. My polite but stiff reply elliptically addressed his own responsibilities and silence. Best regards to everyone. If Jim gets Blazewick tape, please have someone dub me copy at 1 7/8 or more.

Best to all
