

1/6/67

Dear Hal,

Many entrancing things. How about bringing me up to date?

Tom's trip and hasty return, alone! Rye phoned me night before last from N.O. with a story that as he told it, is difficult to believe. He is coming in this direction in a few days, or I'm to go to Washington to meet him.

I hear also that Lifton claims now to have airtight proof of both conspiracy and federal, advance knowledge of it.

I'll be leaving Thursday until Sunday P.M. I may leave for the week of 1/21, don't know yet.

Then, of course, I'm due out there 2/3. Any firming with Associated Student on the speech? Any other possibilities. Will you have time to firm up a schedule so we can let the LA people know when I can be there and what we can do. I'd like to continue on the Crane show, with what Liebeler pretended he wanted me to go into. And there are other possibilities.

He has accepted a live debate with me for 3/22 in a high school in the LA area, about 20 miles out of town. They will pay my expenses, so we can figure on another series of appearances the end of March, and by then there will be more and newer material available.

Very glad you and the LA people are in close contact.

We've just had the fifth snow in two weeks. It has been on the ground here since Christmas, and deep. Also, both cold and beautiful. The night temperatures have been below zero!

Regards,
