

2/21/68

Glad Stan sent memos to me. I'll hand deliver to Mumu. I'd like a copy of the Wilson report if it wasn't given me (I've not had a chance to unpack my bag) for the same purpose. If I have it I'll make a copy for M.

I do not have and would very much like the Free Press Hall interview. It is possibly Steve's, but he may have written something he forgot to tell me. If you have or can get a copy of a picture of Blazewick, please send it to Syeve Burton for him to show Howard, who remembers a "kid" who he thinks had run away from home who tried to join the camp. I asked Howard about B.

Beverly Brunson has send me a memo on the Walker letter. It has been so long since I looked at that testimony and evidence I cannot evaluate it. If she is accurate she may be onto something interesting. I enclose a copy for you people. Let me know what you think.

The enclosed "Hi I.Q. Newsletter" is a non-right nut. I haven't read any, glanced at the first he sent me. I don't know where he got my name but I can guess.

I have written Bill Barry to see if he can get the pictures Hall said were taken of group including Henning and others and to see if he had any more on the States Rights Party. I'll let you know. Sage is going a story on the Miami threat.

If Steve or I failed to thank Paul for the Butler material, please do it. I didn't have a chance to use it, but I am glad to have it. In his letter Paul theorizes that Butler had UAS or SISS connections. I think he can make that in the present and positive. One of the three things he started to confront me with, in fact, the one that he did go into and did misrepresent was not published, at that time. It came from one of these sources. As you know, an effort has been made along that line lately. I'm curious about what Butler is doing for a living now. First Gil left INCA, now Butler is in LA. I guess there is no INCA anymore.

On the new group that is being formed in LA, apparently Butler has affiliated himself. I was written on the letterhead of the LA Theater Arts Foundation by one Donald Freed, about whom Steve has misgivings. I have heard from two of the men whose names are on the letterhead saying Freed had no right to use it.

The SS memo Paul sent (SS 449-CDg4- p. 4), repeats a fiction the Commission was to adopt, through Liebel, that Ferrie's Stinson could not fly. I learned in New Orleans that it looked like it couldn't but it did. He took a guy up in it & proved it could fly so he could use it as security on a loan.

C. Rolleston was in Newark, N.J. today. He told a friend of mine that he knew Oswald as a kid in N.O. and bumped into him again outside Ruby's place, when Oswald introduced him to Ruby. I got the phone number, then Trent Gough called me from N.Y. and I turned it over to him. Haven't heard since. Also learned today that the FBI has a file on Shaw going back to WW II, in connection with Bund activities (The A.C. called him a "nice" man!)...I haven't time to read the paper and haven't for a while. My wife clips what she thinks I'll be interested in and scan them. The clippings I've been including are some I thought you might not have out there.

I finally got a chance to go over the material Paul gave me, besides the States Rights stuff. The copy I gave Steve to Xerox he never returned, as I wrote what I have is somebody's notes Xeroxed from a ruled pad-whose?- notes on Hall's interviews (yours?), Stan's memo to Tom Bethell and his Wilson interview (I have asked archives for copies of FBI interviews), and files dealing with Ramos Ducos, Rendle, Hodge, the Jada party, Duff.
