Dear Hal,

I'm disappointed to have heard nothing from Garry. The revelation of FBI involvement, however, is, I think, good. He can be Dimistrov, if he would. When it comes to FBI reporting, there I sure can help him. I can even show where it was unjust to the radical right, like the "unts. "Unjust" is inadequate: it was directly opposite what the <sup>W</sup>itness said on all the key points, and I have the re-interview, by a different agent, proving it.

It might be helpful if you have clippings of Poole's statement on his resignation if you could send me copies. I know, from radio-TV, that he said much more than the papers carried. At least those I can see.

I'm sending Paul separately what I've been able to learn of the Klan cell in the Chicago police and the names of the cops involved in the 12/4 murders, where I've seen but a total of four. Story broke 12/28-29/67.

If you had a chance to read Ch 18 of COUP (add) before Jim sent it to Gary, the part on the Panthers was sketchy, just to get the essence down and give my agent something of an idea of what I have. So, he was out of the country. There is nothing in it requiring changing, but there is material to be added. I'll send it out when it is done. I haven't been able to start it yet. Also, with Lill texting again, she will not be able to type as rapidly as once she could, for she'll have only parts of some nights.

Best to everyone,
