Dear Hal:

I give up on the Enquirer articles.

I suggest you write to Jerry McKnight at Hood College and ask him if he has the possibilities of retrieving them. In the meantime I shall drop him a letter and ask him also.

You wish: National Enquirer

1- "JFK Slaying was part of Military Takeover of the US Government" Sept. 14, 1969 pp. 25 and 26

2- "JFK and RFK Deaths were Plotted by Secret and Powerful Group of U. S. Business Users," December 2, 1975 p. 48.

In the meantime I continue to work on the assassination from the angle of the investigation of the assassination by the federal authorities. The JFK movie is perhaps the worst thing ever to appear on the murder: I call it Warren Report No. 2.

Just reading the new books coming out is beginning to be a chore.

Adios

Hello Jerry:

Enclosed is a copy of a letter I sent to Hal VERb in California relative to his search for two articles in National Enquirer. I suggested he write to you for possibly you can get them for him. If not say so to him.

He is important for another reason, for I normally would not bother you with this sort of thing. But he has a long time research interest in the assassination and might have manuscripts or know others with manuscripts and books they might deposit in Hood. Please when you respond note that Hood has a new library with a clipping from the press on it plus a note on Harold's collection and that the Enquirer articles came from it--or if you do not have them, that your library will work to get them or in the future you will search for them. Or something to impart the idea of a research, helpful thing.

I also sent to Harold a copy of my letter to a folk singer of about fifty years of age who has all sorts of folk songs on JFK--200 of them. You might want to initiate a pro forma statement to him that he could deposit a copy inb your archives and include clippings, etc.

You can see I have been doing the Lord's work.

David
