PAUL KANGAS
PRIVATE INVESTIGATOR

Paul Kangas, former bodyguard for President John Kennedy is touring America speaking on new evidence recently discovered in the assassination of President Kennedy. What? Thirty years later? How is that possible?

Enclosed is a copy of a newly uncovered FBI memo directly linking President George Bush to the invasion of Cuba & the assassination of JFK. There are 10 more major pieces of evidence directly linking veterans of the Bay of Pigs invasion to the JFK assassination. Hear Paul Kangas detail the evidence from the Bay of Pigs, to Watergate, to Dallas. For dates & times of his appearance in your town, please call: 415-897-0153, seven days a week.

Paul Kangas has located the missing Watergate tape containing the 18 minute gap. He has a signed statement from a former CIA agent detailing the missing Watergate tape.

Recently, Paul Kangas located an eyewitness to the murder of JFK that has never been asked by the police for a statement. Hear the witness. Question the witness yourself to verify his authenticity.

Paul Kangas calls the Warren Commission report, written by Gerald Ford, the greatest written lie since the Bible. Learn why he & most Americans still want to know why the FBI won't arrest the CIA agents known to have killed JFK.

Thank you for your consideration,

Paul Kangas
