I hat so many suckor idarina is her special tragedy. I anticipated that the La Fontaines would use hur and wrote hor in bxaras advance to caution her not Thorough to endorse any book :nithout a thoonth check. But she thinks that kind of foolidh stuff can help hiss rep and perhaps that of her dalehters and grandchildren.

I havatio diabi annual report, thanks.
i' he nembers of tho adize areignorunt of what happened to the members of the Warren 'ommisson and have made the same mistakes. 'heir reputations have suffered, will suff more, and all the crap they are gettine fumped in the Archibes will defy access even more. If they have brought to light a single meaningful gssasoination record from any agency I'm not aware of it. They have let some informatite ISCA stuff out and I've used sune of it.

Arall doesneed time if it is to do anything of any real neaning but you aro githt on their need for motivation. The right kind, not numbors.

If you are near l'aul halier I'm sure he'd like to see you.
Had o. note from laul. Ansuered it.
Glad to get that liowan rticle. ${ }^{\prime} f$ he'd had this view 30 years ago it all could have bo $n$ different. Ditto for tine king fandy. Whey refused to so anything then other than the government wanted. I tried so I know.

I syppose there is nobof near her to whoa "arina can talk about these tbincs other than nuts. That includes the Lancer people. Debra Cianway asked me to write a piece on the La Fontaines, 1 did, they got that phony with the great dho Evica to edit and he kept the thing from appearing. That got Marina off on those $L_{a}$ Fontaine pronotions on the uprah show, etc.
kio, "arina does as those nyts counsel her to do.
thope yipr have a good vacation.

I'm uniting to you just a feer dry before delve for a Florida vocation (dill be there from March $27^{\text {th }}$ through april sch).

Elm enclosing an article on the pay case plus the contents of a recent issue of "Dallas 63 ". This magazine is printed in England $x$ is the other Bunion publication. L've unseen for both. Sd like to call your attention particularly to the article by Marina porter beginning on pages which is hen response to the ARRB. It is the most complete account live seen on her position with respect to the $A P R B$. As you can see she has been taken in dy the La Fontaine book.

The other article in the issue which d don't agree with is the "Physics of pealey Plaza". Fto" science" doven't work when it comes to his so-colled "theory" of "no ahot"fom the kuoll aiead his gereial aqreement or the masic Cullet being as the Wanen Commissin woved hwe it. Beoides hel cutterly urmgon the Tague incident probbably hasn't regd any of your work since he ohould fonow better than what he's put in the article.
dhad catended to senl you a copry of the annual $A R R B$ rifort sulmitled to president Olintor, dt's prssible you may have ahrady recoved it. I aloo received frim the ARRB 3 pages of Hosty's "notes" "which include his presence at Gswoed's interigitionplus his. unterview coith puth paine. You may have a cojyy of tho, also, If you do not Nue a copy ictter of the ARRB annual repat a the Hooty notes 4 desine it lit me pnow \& l'll oend you upisies ofter d satum prom floida.

Didynu longt a chance to real that lenthouse, Jan-1997 itticle ar the ARRB? Ho l'd like espur thouphts on it. Im prepaing an a cticle on the ARRB for one of the Bution pubbication tyiun comments would be welcomed.

While ovingoven the annual $A R R B$ report of note that they're asking Congress for a one gear extension because, they claim, they need snore time to get documents released and studied. As Y'll show in myanticle ot ion't time they need-it is method i motivation.
note also in the stuff dim sending you the article on the Similas affair. the is pretty much debunked but the are a number of questions that still remain largely unanswered.

Will d must close now of do wish everything is ok with you of ell be airting. to yon apter d return fran vocation.

Best, Hal Verb
