

Dear Hal,

12/2/97

Mail heavy and late today. Near the end of my working day. I've read your 11/27 and the eight page memo and I make no sense of the letter and see no probable relevance. I do not recall Johnson but that does not mean he was not in touch.

I'm sure that you are right on Aguilar and that is the reason I rarely hear from him. I've told him where he can get proof that the back of the head was intact, I think he saw that to be true, and so he goes no farther but draws heavily on statements that do not mean what they are said to mean. The hole was toward the back of the head and the flap in some positions was over the back, but the back was not blown out. The Z film proves it, the reason Livingston suddenly saw me as an enemy and did those crazy things relating to that film. He saw it. So, if had to be faked.

Glad you've gotten to be friend with Haller. He seems to be as bright as ~~xxxx~~ he is nice.

And that/both of you had that visit with Mary. She is one tough gal!

The more people spend time in the belief that the Z film and other stuff was faked the more they waste ^h their time and deceive themselves. They are going in the wrong direction. And will have little or nothing to show for their time, effort and costs.

But they do not like to hear any of this or any refutation.

It may have been something I said about wasting time on claiming fakes that led him to make that crack about insults at COPA two yeats ago. Which I enjoyed.

Excuse the rush. Thanks and best,

Hal
