HAROLD WEISBERG
7627 OLD RECEIVER RD.
FREDERICK, MD. 21702

Dear Hal =

Today is Labor Day & it allows me time to sit down & write you.

I'm enclosing various articles, etc. which, of course, you can keep for your records.

If you'll note there is one photo showing a re-enactment photo of the JFK scene in Dallas. The caption below says a documentary is "to air in November on TNT."

I know nothing of this latter event except that a researcher friend of mine says this was on the INTERNET, and that was about all. My guess is that the alleged "lower technology" usage will be done to, ~~once again~~ prove the Warren Commission was "right" after all. Since I don't have CABLE TV nor do I have the INTERNET I guess I won't see any of this. Not that it'll make any difference for public opinion, anyway.

As I mentioned on the phone I'm taking 3 days for a short visit to Los Angeles (from Friday,

Sept. 11th through Sunday, Sept. 13th. I'll visit Ray Marcus during this & we are going to go over the Z-film so that I can get an understanding of Ray's position on these "alterationists". Ray & I are 100% in agreement on the position of the Z-film being not altered but Ray is not as strong on whether the autopsy photos & films have not been faked.

As I indicated to you on the phone I've also received the ARRB depositions, etc. basically consisting of the medical evidence. I have yet to go through them and there must be thousands of pages.

I know you said that you had the Humes & Boswell sections from the ARRB. Are the perjury sections contained in both the Humes and the Boswell sections? I wasn't too clear about this when you mentioned this on the phone & since I hadn't read any of this I didn't know what you meant.

I've mailed off my abstracts to both the Lancet & the COPA conferences to be held in Dallas in November. Lancet has already agreed to have me as a speaker & I've requested COPA to give me time. I assume COPA is being run by Gary Aguilar so he most likely knows my position on the "alterationists". Both of my talks will zero in on the "alterationists" if & when these 2 conferences publish my rebuttals (surprisingly short, in fact) I'll send you copies.

Other wise, nothing else new here.

Best,
Hal Ver

P.S. If you finish your piece on Turzeman,
can you send me a copy. Thanks!
