Dear Mr Weisberg,

I am trying to assess the role of the House Committee on Assassinations, regarding the JFK issue.

Would you say that this Committee was impartial in its findings, or was it attempting a white wash? Since it has concluded that a conspiracy existed, some people claim that the investigation was open minded. <sup>never even worse on King-Roy, where it was McCarthyite</sup> <sup>Not in any way</sup> <sup>to the degree it dared</sup> <sup>(having no real choice)</sup>

I am convinced that this issue will be written up in the future. However, I would appreciate it if any evidence can be found at present.

Allen Felt these Thank you,

obtained about 200,000 (Allen Weinstein)

pp of primarily secret FBI files. Fighting these lawsuits is more than full time occupation. To the degree I can I'll write about the more significant records. Let will be deposited at Univ. Wisconsin (Stevens Point).

Best wishes
