Trying to keep up with a heavy work load and all the correspondence after the heavy phlebitis drives much from my mind. I do not recall telling you I had the Cawald-ringuier debate on tape. I did use it in Cawald in New Orleans, with is what I have for \$21, including postage, etc.

Whatevr they told you I'm sure the Archives has that on tape. They have probably two versions, one from Armesto Rodriguez ria the Secret Service, the other from the radio

program Carte Blanch on WDSU radion, not TV.

If it is not too much trouble I'd appreciate a zerox am if what I take it you are referring to, the transcript of the tape. Obviously, there had to be a tape from which to make a transcript. Go back to them, I'd appreciate a copy of the correspondence on all of this because the words Oswald actually spoke were changes. In the original they are embarraseing to officialdown.
