

February 25, 1980

Harold Weisberg  
Route 12-Old Receiver Road  
Frederick, Maryland 21701

Dear Harold:

Thank you for your letter of the 21 February 1980.

In reference to the Novel PSE Test a second has been made. Approximately 50 questions to strength the first interview. I am aware of the Hugh McDonald interview and the challenge to prove it wrong although the questions and answers were never publish. However I never knew of the PSE Test with Humes. I wonder if it included the missing missile which was recovered during the autopsy?

As of 22 February, I obtain the records from the Archives. Between my report for theDOJ and going over your records it is very apparent that the trouble you gave them. I have a better understanding of Jane F. Smith of the NA now. From what I can tell, some of the documents are missing. The internal memorandums are very interesting. I sorry I have money problems so I have to send them (the documents) in batches. Or if you like I can send you my copies with a check enclosed to pay for the returned postage. Which ever if the best for you, because I own you. Let me know.

Could you please give me the address of Robert Groden.  
Many thanks.

I have not heard from Marshall as of yet. I will gave him till the first week of next month to answer. If I have not heard from him by then, I will sent the next letter certified. My request was simple, remakes of the prints that were made for you back in 71. I even told him I would allow restrictions. It is clear, from the NA records that you will never get them release, that is to say all the hell you have given them.

"CONGRATULATIONS <sup>on</sup> ~~are~~ your victory over the CIA on their files against King!

Before I forget, on Novel a series of radio and tv documentaries done on him. There is a question which one day may be answer, "With the break-in by a former CIA agent into the safe file containing the autopsy photographs and X-rays was it just mere interest by the agent to view these?" Or was it because Novel ID as the umbrella man was in the same folder which may coincidence with the attempts to murder him? This is just between us

Sincerely yours,

*John*

Dear John,

2/29/80

Reur 2/25:

Some of the records relating to me from the Archives are missing? Ask them to explain the gaps.

I was aware that I gave them trouble, but they permitted no real alternative.

You say you perceived this between your report for the DOJ and the reading of these records. I don't recall your report for the DOJ.

Suit your own convenience on making copies photocopy or sending them for me to xerox. If the latter, used 4th class and insure for the full value of replacing them at the Archives. Label them educational materials and use published in my address.

I'm not in any great hurry and this time of the year, through 4/15, my wife stays so busy with her tax work that I hate to ask her to do any unessential xeroxing.

Groden, who is having a hard time, is at 385 Florida Grove Rd., Hopelawn, N.J. 08861.

I doubt he'd want to level now, but the PSE that had <sup>4</sup>times an honest man was by George O'Toole.

I take it that your papers carried the LATimes story of what I got from the CIA on its dirtiness toward <sup>4</sup>ing. I'd appreciate a copy if you have it. <sup>4</sup>ot used around here but this morning's Wash Post opened with a short bit of the same material in a general story on the CUA campaign to get out from under FOIA. (That case is far from over. They withheld much.)

Blahut did not break in. I don't know what he was up to but I suspect that something like the National Enquirer reached him with a big fat offer if he could cop one of the autopsy pix.

Believe me they would not be interested in any umbrella man stuff.

If anybody is trying to murder Novel and if those who have cause were all interested, there'd be a very long line. And it would have nothing to do with TUM(s).

I'd like to call but neither of us can afford it.

Sincerely,
