Dear Harold,

Would you please send me the index and additional pictures for "Whitewash II." Enclosed is a self-addressed envelope.

In recent weeks I have become increasingly interested in the case and have tried to read just about everything I can get my hands on concerning it. However, I am afraid that much of the wild speculation on the part of some will cloud serious investigation.

Aside from my personal interest in the case, I'd like to keep up with your activities because of your local connections so that I may report them on our local newscasts here.

Looking forward to "III." Hope to see you the next time you're in this neighborhood.

Sincerely,

Joe Mosbrook

Dear Joe,

I hope the misaddressed copy of the index reached you. Here is another in case it didn't, my wife wanted to be sure you got it and had your name wrong.

I wish I could keep up with my activities! In the past week I've made two three-hour broadcasts by phone, one to Chicago and last night (until 3 a.m. this morning) to San Francisco. Friday early I also flew to Chicago for a TV show with one of Ruby's lawyers and a former commission lawyer (who suddenly remembered a delayed Christmas party when he learned I was to be on the show). I then flew back to Washington without even time for phone conversations with Chicago friends to be on a late-night talk show in Washington, where I was, I am happy to say, confronted with that scurrilous Capitol record that every decent mc instinctively resents because it is so blatantly dishonest, such obvious lickspittle, so clearly designed to garner a few bucks. It is easy to ruin because it is so false.

Next week and the following TV shows in NYC. So, my time for creative work is greatly reduced. I may get behind on WHITEWASH III, in which interest is great.

Although I have heard nothing directly from Dell, I understand the first printing of their edition of WHITEWASH, 250,000 copies, was inadequate and in a single month they had to go back to press. Encourage.

Thanks for your kindness and interest. If you ever get any propoganda for the other side, like with this awful record which so defames decent people, I'd be interested in it.

Sincerely,

Harold Weisberg
