Dear Jane:

In the past, you have been so kind as to have my friend, Harold Weisberg, on your show to discuss the President Kennedy assassination. As you may recall, Harold is the leading expert on this subject, as well as the murder of Martin Luther King.

I enclose a FBI memo from 4-4-67 that you may find interesting. The first three pages concerns reporter Jack Anderson telling the FBI the theory behind Jim Garrison and his investigation into the JFK murder. It is mostly incorrect, though this is what Garrison believed.

On page three, is the interesting part. Marvin Watson, a top aide to Lyndon Johnson, states the President "was now convinced that there was a plot in connection with the assassination. Watson stated the President felt that CIA had had something to do with this plot."

This memo is authentic, I believe it was released under the Freedom of Information Act to Weisberg. If you have any doubts, ask Harold, or Prof. Jerry McKnight of Hood College in Frederick, Maryland.

I think Harold has provided this to the Washington Post. I have provided it to Gary Webb of the San Jose Mercury News, of CIA-Cocaine fame. I even wrote a National Enquirer article about it that was not published. Perhaps I should save it for my book, but Harold believes these are the property of the American public, so I provide it to you. It has only been published by me.

This memo proves two things. 1. LBJ thought JFK was killed in a plot, not by a lone Lee Harvey Oswald. 2. LBJ suspected the CIA.

Harold Weisberg is at 7627 Old Receiver Rd. Frederick, Maryland 21702. Phone 1-301-473-8186.

If you do book him, please leave me a message at my office. Thank you, keep up the good work!

Sincerely,

Bill Neichter
