

Have WITH DANDY TAPE 312517,
Truth would not come out -
Ray would not testify -
This is not the way U.S.
Justice works

On the voir dire all Ray
said is that as his lawyer
told him the law he was
technically guilty

"Ray stood up in open court
and said he killed Dr King
did not - Beady might
He denied it when Foreman
added it. Compliment Beady
on this - Ray on a conspiracy
"He did everything I could" -
He could not have investigated
in Memphis

Ray did not trust Hue
Thought he would find -
~~The Soto~~

~~Third article - says "Little
conspiracy"~~

"Had to stay away from the
exact point of the murders" -
not on his own - entire
investigation not of the crime

not quite as alt. historic as
seems. Freeman thought
his share would be over \$500,000

Robert Kennedy knew only
what he had been told

Ray had no defense whatever

Dwyer

All the investigations of which he talked are irrelevant, except on conspiracy. What counts is Memphis but in that Memphis spent about as much as they did on buying Stephens' sales. In Memphis, the FBI took over & they put it to Memphis.

If his was looking "forward legally" why do they now oppose any trial of Deep? The public has been taken up - as apt for propaganda. Execution not the only answer - unless they

on King - family name

The number of witnesses -
100 - immaterial - and
of these only 10 or more

He did not seem a stipula-
tion that he killed

King & I challenge
Mr. Dwyer to prove it
now, for if he doesn't,
I will present that
stipulation

Print on bond
