Dear Henry,

When you can farm a bit in addition to playing some golf you are doing fine! Keep it up! I'm holding my own. And I guess I've adjusted to not lifting more than 15 pounds, which is prohibited. I really miss heating us with a wood fire. I've given a year's heat away rather than have it just sit and rot. But I feel as good as I can expect to. and except for conclusions I've completed the rough draft of an enormous book. Part of it says what you say, that you doubt the truth will ever come out. It goes farther and with some of the records I got by all those FOIA lawsuits says why it did not and why it cannot. Without a critical word about Dallas and with considerable sympathy for the federal abuse of the Dallas doctors, particularly Perry.

I've pretty much decided that for my next writing, again what a coincidence that one sentence of yours is, I'll go into a different aspect of the truth that will never come out by putting down ^{some of} what could have come out and was avoided and misrepresented.

It will be about Oswald. If you made any notes on your trip to Washington with the dean and Jaworski I'd very much appreciate being able to use them. Also if you have any recollections you can share.

You were squeezed in between two executive sessions mostly on the report that Oswald worked for the FBI. You were treated differently. They did not have the court reporter present. Or didn't you know that? The long and short is that they wanted no record of what you'd learned and they'd heard about through Waggoner Carr and they preferred having as a matter of record only what they wanted for that matter of record. Rankin could be pretty devious. That he was with you is nothing to his doing it to Senator Russell, one of the Members, possibly to two others. He saw to it that the Commission's records would not include Russell's disagreement with the Report! After I gave Russell the proof he encouraged my work until his dying day and when he knew that was close he went public on TV in his area.

One of the things he told me is what I'll be getting at in my next writing: "They haven't told us all they know about Oswald."

And that is why I hope you have some notes or memo on or relating to your trip to Washington on 1/24/64, as I recall, or some recollections you've either put on paper or can dictate. They would also be important for the historical record.

I do not want to mislead you about the draft of the book I've about completed. I have no agent, can't travel to get one or hand copies out when I have them, and I think that at this stage of my life I'd rather get another rough draft on paper than edit this enormity. It may well be a quarter of a million words in length. And what documents I have for it ^{that} ~~that~~ from the size alone won't be used.May your very good luck continue!! Your friend,

Harold W. W. W.

Frederick, MD 21702

Dear Harold:

It's always nice to hear from you. I never did get access, nor did I try, to the latest information supposedly released by the government. I appreciate all the work you have done. You have cleared up many matters. I doubt if all the truth will ever come out, however.

I'm sorry about your ill health, but hope it improves soon, because you are needed with your knowledge about the assassination. My health is very good, but I should knock on wood. I still play a little golf, farm, and practice law. I do little else.

Good luck.

Your friend,

GEARY, PORTER & WEST, P.C.
