Dear Henry,

It is precisely because "they will be talking about this 100 years from now" that I'm using what time remains for me to make as accurate a record for our history as I can.

I'm sorry that Case Open was rushed and that they just left most of it out, I suppose in the belief it was strong enough and so that it could be sold for less.

The book has been in the stores for more than a month and I've heard not a word from Posner or his publisher.

I'm inclined to think you'll not find much to disagree with in it. But remember if you do, that my almost exclusive source on the crime is the official evidence.

You seem to have forgotten that your opinion is also changed. You told me that you knew the shooting attributed to Oswald was impossible. And that you are a good shooter. Or was then. You and I think you said a son had just come back from a hunting trip and ^{only} ~~only~~ you bagged a deer. (They come right up to our home. They are plentiful here and we love to see them. And the honkers, a pair of whom have moved in and seem to be either incubating the eggs or about to from their feeding habits. We put corn out for them about 35 feet from the kitchen door.)

I now can't distinguish between the manuscript of about 200,000 words and this bob-tailed version of it. But I hope that what remains includes my reference to the best shots the commission could get, NRA-rated "masters", and they could not duplicate the shooting attributed to Oswald.

Thanks for your good wishes about my health. I'm still here and work every day and at 81 and with all that is wrong it is a blessing that I can!

If you find anything you disagree with let me know and I'll probably be able to send you a xerox of my source. Or at least I'll explain it.

I hope all is going well and that your bad weather we've seen on TV has not kept you off the links too much.

Your friend

Dear Harold:

I got your book and have read the foreword and prologue and am getting into the book now. I can tell that it is well written and I look forward to reading the rest of it. I haven't read anything where we disagree so far, but I am sure I will see a few things as I read the book.

I never did get a copy of Posner's book, nor did he ever interview me, as far as I can remember.

I hope your health is better, but don't work yourself to death. They will be talking about this 100 years from now.

Your friend,
