Dear Henry,

You'll remember the flap over which Rankin hauled you and the TCI up to Washington in secret in January 1964 and spoke to you all in secret. It was over the report that Oswald had worked for the FBI.

Well, I have nothing new on that. But not entirely unrelated is what I do have - solid proof that in the Marines Oswald had a Top Secret security clearance with crypt clearance.

Plus two interesting records: the FBI search of the Marine records disclosed no security clearance for Oswald and the Navy chief of staff's cable to the Moscow embassy when Oswald "defected," saying the same thing, no record of any security clearance.

I didn't find this proof in any personnel record, where it belongs. It is in other records I've gotten.

I don't know yet what I'll do with this, but I'll try to do something. This is only for your information because I think it may interest you.

The FOIA cases drag on, producing a little now and then, and the official stonewalling doesn't end.

I hear you plan to retire. I hope it is a happy and active one.

Best wishes,

Harold Weisberg
