Dear Anna Marie,

I've just noticed I had you in SW. I hope the correct zip got what I wrote to you.

I've gotten a printout of what is supposed to be all the references to me in the JFK archive and it is woefully incomplete. I've written Dr. Graff about it. Earlier, without response, I wrote Woolsey. So do not trouble yourself to get me this printout. I think I am can get someone to get the copies I want.

The CIA gave the archive nothing. Ditto for State, Secret Service and Army and Navy. I made requests of them all. There are five CIA records in this printout, all provided by other agencies. There is less from the Archives than it gave me under discovery in a FOIA lawsuit. Less from the FBI than it had already disclosed to me in FOIA response. Or, with regard to individuals, all the agencies seem not to be in compliance or intending not to be. So I wonder if those slighting references you saw to me were in other than CIA records, most likely the FBI's?

In connection with resumed writing of very long ago that I want to complete for the record for history, I'll very much appreciate it if from your examination of what the CIA did give the archive if you remember the date of the first Oswald record in the CIA's disclosed records and about the volume of what it disclosed by about the end of May, 1964.

I wrote Graff after reading a comment he made. He may not have been the best one to whom to write.

I'll see if I get a response.

I also sent him a copy earlier of my 10/7 letter Woolsey asking for what I know the CIA has, what I have reason to believe it has and what it has under the name of a former special component that did not use the CIA name that it did not give me in response to my old requests. If the ARRB wants to probe the CIA on its compliance, I gave it some leads on what can embarrass it. The CIA,

Hope your health problem is over.

Thanks and best wishes,

Harold
