Dear Mr. Weisberg:

The court transcript, the autopsy report (RFK) the Curry book and Joestens appraisal of it: blackmail of LBJ, Mor Miss wardell-Hall. She is eager that I tell you she had nothing to do with acquiring the documents, that she was definately not capable of doing so. She sent these and other material to Mr. Joesten, but Mrs. Lillian Castellano obtained them --after weeks of delays due to evasions, lies, and But what the lady goes after the lady eventually gets !

Miss W-H knows about your suit against the government. Mr. Weisberg she has not even read your books --just a sketch here and there. Her reading had to be limited -- she as congenital, congestive heart failure- a bad case until very recent years, had to struggle to keep conscious just SOME of the time.. Reading a bit here and there ----she KNOWS who is doing what ! And so it is that I want to add a little about the Curry book. Miss W-H mailed several of these away: Germany (J) Peter Dawnay and others. (She said to tell you that it is the SUB titles that drew her attention at first glance at the book.) she kept two: one for you if you wished it. the other she is trying to exchange (with cash if necessary) for a Z. film. She had one once and gave it away. The film would be for the purpose of adding to what she calls her "feeble" efforts in preserving -the TLs. and the two documents. She had a long battle to get these into the library !! Which included the theft off one Curry book ; Not due to the administrative part, but the head of the history department, where assassinations are catalogued. But please let me add a little about the Curry book. Who ever will have charge of this copy, should know that apparently, there are no more copies. As above, Miss W-H saved the two, so when the one "disappeared" from the shelves of the history librarian (where it had been a few minutes before "Why I'm looking at it right now" - an Miss WHH appealed to the Director of Central Library she and a prof. each paid twenty-five dollars for a copy after much advertising among dealers. The Prof was not

"in" the assassinations, but was enlightened by material he saw. Should the court transcript or the autopsy report disappear, please write to Mrs. Lillian Castellano 8636 Lookout Mountain Avenue, Hollywood, California 90046 to ask her for a box number where a duplicate may be obtained. ---perhaps a box number is penned on one of the copies? If so it is Kimbrough's box. Mrs. Castellano would NOT prepare a book herself. She gave her valuable reference material documents etc, to Kimbrough who combined them for a book/

About the article re Dr. Noguchi and Dr. Wendt- The LA Times and the Herald Examiner cannot report until next week IF they have anything on it. A congenial young editor at Hicks Deal spent a lot of time searching through his notes for the source: It came from the Public Relations Dept of the ATIA, 20 Garden Street, Cambridge, Mass 02138. area code 617-868-6900 Stan Berens. There is an LA atlas but the two have no connection.

Soon one recording will arrive: an interview of Mrs. Castellano.. It is a dreary thing except when Mrs. Castellano is speaking (re bullet holes in wood) It's valuable....the "OKJack" is to Kimbrough. One call should have been preserved: a friend of McCarthy's daughter who told of threats to the family.....

Miss "ardell-Hall wants me to wish you continued success in your valuable work. and that we wish you and yours all that is Good.

Just one appeal, Jessica L. Hansen
Mr. Weisberg. Please do not mention Miss W-H name to any one - she has no contacts any more.....
You, and the hope for a Z film are the last.....
