Mr. Harold Weisberg  
Route 7  
Fredrick, Maryland

Dear Mr. Weisberg:

I have proof that the Federal Bureau of Investigation did seek evidence of the assassination of Kennedy amongst the extreme Right Wing elements immediately after he died.

The FBI moved into one of our small southern cities in California and questioned known members of the Ku Klux Klan and other such groups the Friday nite of the day Kennedy died.

The proof is within two or more taped talks by the head of Californias KKK, which are completely documented and in my possession. The tapes tell of the harassment by the FBI of this element (alone) of our society. In one tape the speaker expounds upon a prediction of Kennedys assassination.

I was in a Tennessee prison when Kennedy died. I arrived in California three months later and accepted the undercover assignment for the FBI to enter the Right Wing organizations and report. I became the security guard of the records and bodyguard of a Director and President of the KKK's front organization. I collected fifteen tapes (about 18 hours), two or three of these tapes contain the information mentioned above.

Yours truly,

*Chester W. Warman*

Chester W. Warman

I have carbon copies of the reports I made to the FBI.
