Dear George,

2/3/78

The pages of the FBI's JFK releases that includes a few on Ford came today, just as I was leaving to take "il shopping. I read them then and decided I wanted to make a few notes. On the chance some may be of interest to you a carbon of this will be my notes.

(If you can locate the others on Ford it would help 'im in the litigation, and I'd like to have a copy of the one in which Hoover called him a "toad" on the wall.)

62-109090- Not Recorded, W.S.Sullivan to A.H. Blomont 5/13/64, subject Angleton, etc.: That the first graf took attention I can under tand but I think there are significant indications in the second, like Angleton (sic) did not have the complete answer worked out on suggestions for safeguarding the President. After almost a half year?

As are some of the oth r copies, t is one was also directed to the Soviet Section. I wonder why. t has no Soviet content and no apparent relevance.

62-109090 - Not R corded 6/30/64 Rankin to Hoover on the Oswald Diary leak; the resolution Ford proposed included an investigation of that leak and of any of the future but it did not propose any of the past be investigated. That made it safer for the FBI and others.

I'm sure that before this time the story of that leak was known. It is where O'Leary fingered fugh Aynesworth, who may not have required fingering. Bill Alexander let Aynesworth have it. He got either 34,000 or \$5,000 from LIFE, which then had to pay Marina either \$2,000 or \$25,000 to be safe and secure.

(An unrelated page 2 of a Ruby memo is attached.)

62-109090- Not recorded 4/17/64 Hoover to Ford, on party Ford, attended at DeLoach's home and using that as excuse to flatter Ford; This appears to be from Section 9, the only record you sent with such an indication. There is another file noted. It appears to be 94-40611, in the FBI filing code 94 is "RESEARCH MATTERS. Sounds like something other than normal research. On a dull day maybe you'd like to see if this is where they hid secret Congressional files?

62-109090 (possibly Serial 35 or 36) 12/12/63 DeLoach memo, probably to Hohr (illeg.)

News attention does naturally go to Ford and his being an informant for the FBI although a member of the Commission. But I see other interests. One is that so many of the Commission members did not want a man like 6lney as general counsel. (Paul Hoch followed this aspect once we broke loose parts of te executive session on this, with the names obliterated, and correctly guessed Olney's was one of those names.)

It is not from the allegation of a "one man commission" when the chairman's choice becomes chief counsel. That is normal practise.

The transcript of that session reflects discussion somewhat less emphatic than this says Ford says it was.

Hoover's note approving Ford's claim to not wanting any word of the FBI's report out is no less self-serving that Ford's because Hoover had already leaked the essence of that report a week earlier. Ford is ridiculous in his pretenses because of this and the Commission's discussion of it. That was 12/5/63. Among those to whom there were leaks are O'Leary and Les Whitten, then with Hearst.

"Garrulous" is Hoover's odd comment on McCone's passing on a bum steer about the phoney Alwareda Ugarte fabrication that he saw Oswald paid off at the Cuban Embassy in Mexico City. The CIA was passing on a bum steer even after forced to prove it false. As Rocca did in his 1975 memo to the Rockefeller Commission.

62-109090-Not Recorded, 7/13/64 Rosen memo on interviewing Ford over leak of LHO diary and attached DeLoach memo on his conversation with Ford, both duplicate filings: It is my impression that there was no mystery by this date, that the FbI had the whole story and knew it had no Ford connection. The name is Slexander, not Holmes but William.

There is a case, M whither this own or another I'm not checking to see, in which Ford want to wave around an FBI clearance. I have it in facsimile in WW II. The FBI questioned Ford and nobody else and wrote him a letter saying he denied it all.

at 1 recall it rote also sade big speeches about his parity in exceptive sencion which leaks. I never die see how his word was butter if given to an FeI  $n_{ij}$  at than if given to his  $\mathbf{x}$  fellow Commissioners.

For his gions convergation with . Lee Renkin and at 12:15 p.m. for what he told Joseph Sizoo, Done tie Intiligence. (Interesting that surveillance of writing was assigned to Pote tie Intelligence.

For prying into varina's personal life, claimed langer to Commission.

.P.1-marina living at Ford's home. If this is Gerald Ford's (there was a Declan Ford she knew in the Dallas-Fort Worth white Russian & co. unity) he also was then working on his book.

Rankin asks for the surveillance after marina had asked to be relived of this by the Secret 5 raice and Warren had agreed. But then Rankin had worried the Courisation with his belief that without the Secret Service on her tail (vice "artin) she'd skip to mexico.

On 1 ter pages the marks indicating withholding under exemptions like privacy are visible. There the FBI people sie not consider obliterating that marina was having an "frair" with Martin.

here am on following pages Hoover does not believe the haring fairy tale that bewalt said her planter to shoot wixon that day, a day wixon you not in bullars. He ver also come not believe that she locked him in the bathroom. Hover given him reasons but they do not include an explanations of the locking of a bathroom door from the wrong side.

Inferences the ctory was made up for 3000. It is still being retailed.

F. 3, more on Parine and Partin, with marks for obliteration visible -no obliterations on her sex life.

Living, despite this representation. As recollection is that the Secret a spice reports indicate it began about hams, when "artin royal arina from the ann into his home, to his wife's atrong objection, mover appears to have knowledge not reflected in available Commission Tiles, on this, the affair.

The content may'el for excision should have been excised under (b)(7)(c). No question

about it. (That's teach "arina not to love the FBI!)

Boover knew more about the usuald picture with the rifle and more than that LIFE has and used it. (Coul. he have been putting Rankin on, to pretend that he wid not know all the content of all the reports the rid gave the Consission?)

race 5- all the mexico City leads (not describe) "figule." Perhaps he meant on the question of conspiracy, or checking like of the Alvaredo Ugarte and Diz Verson fairy tales.

Hoover's disbelief that Oswald shot at Walker because Parina said Oswald said it is interesting but his reflection of the testing (over to p. 6/ is inadequate. The Dallas police has identified that bullet as 30 caliber. Poover says only that there were not positive additional rates. So, for what purpose are they equipped for such other tests as agreetre raphic analysis? The only reason for hot having done and quote it is the certainty of that it would show - not Oswald's assoc.

Mandling of the tap on Marina's phone is interesting. To Okay from the AG even taked. hoover says it is his own idea, too.

Let page states she is livin with a man - no privacy concerns.

62-109090 lot 3 corded 1/10/64 Brungardn r to w.C.Sullivan on "CO...ULIST FACTY, and Com S. II.T. Lald S.C. F. OGRad." Or converting the Jrk assassination into ############# propaganda and disruction activatios.

Although the Fol state a and the DJ argued the point in C.A.75-1996 that the Fol never reproduces copyrighted material. They do, but here they consider buying it for the operation. In it they mask the name of the right-winger who doped the idea out. Probably claim to 70, but there is no real problem in identifying one who copyrights if the title is available. Here it is Bloover noted GA, for the purchase of 500 copies and their use for disruption.

JAMES ANGLETON

CENTRAL INTELLIGENCE AGENCY

James Angleton just called me to advise that Mr. McCone, Director of CIA, will testify before the Commission tomorrow. Angleton said it occurred to him that it would be well for both McCone and Mr. Hoover to be aware that the Commission might ask the same questions wondering whether they would get different replies from the heads of the two agencies. Angleton wanted us to know some of the things which he believes McCone will be asked and the replies which will be given.

One question will be 'Was Lee Harvey Oswald ever an agent of The answer will be no. A second question will be "Does CIA have any evidence showing that a conspiracy existed to assassinate President Kennedy?" The answer to this question will also be no. The third question will be "What suggestions does CIA have to offer for safe-guarding the life of the President of the United States?" Angleton didn't have the complete answer to this worked out but because of the nature of the question, it wouldn't conflict with what the Bureau has already suggested. A fourth question will be "Does CIA believe the Soviet documents on Oswald submitted to the Warren Commission accumately reflect the Soviet relations with Oswald?" Angleton said their answer cannot be either a flat yes or no because they do not have the knowledge to so state. He said he believes McCone's answer will be to the effect that CIA is aware that Soviet Russia does have a directorate charged with the responsibility for carrying out assassinations and, therefore, these documents in question would not normally reflect accurately relations with such a person as Oswald. However, on the other hand, CIA has no evidence that Oswald was under the instructions of this directorate charged with assassinations.

Angleton said if anything further developed today which would be helpful to us, he would call.
