Mr. Earl Warren
Chief Justice
U. S. Supreme Court
Washington, D.C.

Dear Mr. Warren,

Here is a copy of my book, WHITEWASH, THE REPORT ON THE WARREN REPORT. It is not the quality of an author that inspires the hope you will read it as rapidly and carefully as you can. Unless I am entirely mistaken, you will find in it things of which I believe you are unaware.

You will find that the book focuses on the Report and the staff rather than the Commission and its members. It is my belief you were imposed upon.

If, upon reading my book, you find you can agree with my single conclusion, that the expected job has not been done and must be, entirely in public and preferably by Congress, I hope you will join me in this demand.

There is material I did not include in the book. Should you have any interest in it or in speaking to me about it or anything else, including what I now believe really happened in your investigation, I should be honored.

Because of your own declared beliefs in our basic freedoms, I also direct your attention to the Preface and the efforts to suppress this book. This statement is actually an understatement of my experiences.

Again I want to urge a careful reading, for I believe it is to your interest. I have in mind such things as the real history of the so-called "found" bullet, discussed in the chapter, "The Number of Shots", and what the Commission was told of the history of this bullet; the story of the governor's and the President's non-fatal wounds as presented to the Commission when compared with the depositions and the FBI accounting; the treatment of the photographic evidence, especially the Altgens picture; and many others I will, should you so desire, call to your attention.

Sincerely yours,

Harold Weisberg.
