September 3, 1966

Dear Mr. Wolff,

It is my belief that a major liferary scandal is in the making. I am writing to let you know of it and to ask, if you may properly do so, that you save all the reasons on all the similar books of whatever entecedents and authorship besides be Sauvagess. He is a man of such high entical standards he same unreal today.

my files are open to you, on a confidential basis, should you personally or the Washington Post so desire. I do not now believe there should be any publicity because some things more important than financial gain and loss are involved.

Much information of interest is breaking in the European press. I have copies of some, especially interesting to me being a story by Peter Fairley in the Evening Standard of August 26. It says, among many other facinating things, that his October book is being published by the New York Review. The Philadelphia ment of his July 28 lices in that paper. Following its appearance I also had correspondence with the NY Review, of an unsetisfactory nature.

You may perhaps be interested, in connection with the current publicity about the Menchester book, in an interview with the New York Times last year. It appeared in the May 19, 1965 paper. I have a copy. He was also interviewed by Jeremy of une 1966, I believe the 29th. I also have a copy.

When I was in NY earlier this we k to participate in a panel program on the Report that will be syndicated by Metromedia and released in about two we ks I was told Menchester has had a return of his nervous disorder. I cannot confirm this but my source is a trade one, and I do trust it.

I have no way of moving whether you or the Post will be interested. In any event, I do trust you for both advice and to maintain confidence. I shall probably mail this in mashington bonday. I'll be in mashington probably wednesday, should do not have access could be of value to me, if not for other interests, and I'd much appreciate getting these from you if possible.

of which I'd prefer nothing public at the moment for there may be some hazard. I've roughed most of it, 12 chapters, under terrible conditions and too great hoste for the writing to be what it should be. But the content I think is amjor. I wish I knew a good editor! I already have an offer for it from a house I've never heard say a scandal has already been rade, you may want to keep page 329 of the August 29 issue of Publishers' Weakly, a copy of thich was mailed me by a ustomer.

Sincerely,

Herold Weisberg
