Dear Barry,

Whether or not accurately, I have been told that the Po at has a Helms memo that was not used by the committee. This is described as one proving Helms a liar. The Post is said to have used its contents about a month and a half ago. I do not recall it.

If there is such a memo and if you can let me have it, I would appreciate it.

I read Szulc's book on Hunt long before Woodward's review. He describes the book other than I would. I found the book fascinating in ways he did not indicate.

This week Dan Rather reported Mullen/CIA connections. I failed to interest your people in this a year and a half ago. If there is anything you can let me have on this it might help me pursue the efforts I am still making. I was not aware of the Singapore connection Rather reported. There are others he did not report. They are of a nature that leads me to believe he reported what he had been told, not what he dug up on his own.

There is, I am certain, a major thing here. If you can assist me in any way, it might produce something significant.

Recently there were stories on a Mader deposition that was made public. It deals with the Plumbers and as I recall with the dairy business. Do you have it? I am onto some unreported Plumbers activities, so almost anything on them can be of value. There are also unreported connections of contributions I am following. As best I can, that is.

I liked Paul's Ray story.

I can provide another if it interests you. It addresses federal knowledge that he did not do the shooting. While I can provide the leads by phone, I would prefer not to.

Sincerely.
