Dear Paul, Valentine

If Wayne Chaptain had taken his barn, which I doubt, by the time he went to see Ray, he certainly had not anneed them and he was not and could let have represented himself as even a lawyer, leave alone one of Rayse, all of whee are a matter of record.

What was actually some was stupid enough, but do you <u>really</u> believe anyone is that stupid?

I can't balieve that Wayne would have jeepardiged admission to the bar that way. Or that "ivingston would have jeepardiged his standing.

Her can I imagine too many sources for this lie to you.

I received what I regard as a suide non-response from Neary today in supposed answer to my letter to Marden Rose about the continued opening of all May's sail from all his defense. Not just no. No denial. Not even full denial that it was copied. And that not by Rose. Or under eath.

no you for a minut, suppose that the ProsoMicisitar had to have Wayne surveilled to allege bias on a story he hadn't been on in menths?

Have you the reactest action of the real wise in both papers - superite bins?

There was not one of a long string of maile's live not repeated faithfully, without any checking with those asout when he lied.

For that matter, the judge's reprisend about this also went unprinted.

Mias was harely a factor.

And with Mayno's stuff having begin to appear in Computers about mine menths ago, wore his holding a possenul view the factor, then surveillance still was not accessary on him.

Even out relationship - or that we saw canh other - was/secret from the paper. Until I remembered to get his number, which was not intil after the pariod of known surveillance, I both messages for his with his writer.

You covered the heaving. Whother or not you have reas the 6th circuit's ruling, can you imagine mything at isoue to which have good have been a witness?

Frankly, I'm surprised fellow reporters took no interest in this. Nor in the fact that Henry never intended calling him. Her in the fact that there was no official acrylos of the subposes. Nor a State check issued for without feed. (I am loary's personal check attaches to the personally-serves subposess.) The marshal has a record of those subposess he nerves only, no you'll find none on wayne. And what a coincidence: Henry waits until he has to know Wayne is to leave for backville for the correspy of getting his lawyer's license and the attendant seminar. And after all this tells wayne verbally, not in writing, that unloss he is called by the end of the day after wayne was supposed to leave for Backville he can't be called and can leave. He denied this in my presence but never made any allegation in court. The alightest checking on his allegations about seer sick mentre mays would have disclosed that he am the rest of the State assistant he's has days to lunch while they were making those noises. If you want to check, the lawyer who say them and converses with Renfre in Ealter Auford. It was in Cooper's and in their presence Hanfren said they had no intention of calling him because a) they say he is crany and b) they don't can't the testiveny he could give.
