

Demo Bugging 6/30/72 Spoke to Bob Woodward, Post, this p.m. He agrees Duarte picture he has not yet sent back (told him ok) like but not likely Gonzalez. He has has "experts" compare. Said DC Daily News has story today saying Spanish pistol, Demo HQ plans and eavesdropping device found in Hunt's White House (meaning EOB) desk. I told him I was surprised it hadn't been removed immediately. He agreed this seems strange. He has no personal knowledge, is still working on story, but nobody will talk. He says he has not been able to find any of the source I gave him. I had given him Alberto Fowler's home and office numbers as of my last knowledge. Information should be able to provide either unless he has left town. I told him Alberto's job, and he says he'll check that way. He seems less inclined to question my Bay Pigs names,idents Hunt and Barker and does agree that the aliases "Eduardo" and "Lacho" were made available too easily and too fast. He agrees no published literature mentions these aliases and esp. not Haynes Johnson.

It seems strange that the press can't come up with anything and yet is silent on official silence.

This major development which would seem to link the White House itself with the caper was not on the 4 p.m. CBS net radio news and not on NBC's or CBS' evening net TV news.

No comment on anyone besides a guard having any weapon anywhere near the President?

Lesar said he had read in a paper that the source of the \$89,000 deposited in Mex City Bank was two Chilean businessmen. I said, "Good old ITT". Both laughed.
