

Too Damn late on
THURSDAY 7/23/49

Dear Harold + Fil,

I bet the both of you are very pleased to be back in each others company! God willing, things may settle down for awhile for you both have gone through a tough time!

Harold, thank you for the reply to my letter. An interview would be most cautiously approached on my part. There are many questions I need to ask, and constructing those questions so as to cover all facets is something that will require my time and attention. I would like to have if possible your wife's input, as she is so much a part of everything you have done. Fil, you are Harold Weisberg as Harold Weisberg is you. Your labor in this endeavor with your husband is of equal importance!

A good start would be your careers prior to the second world war. It is important that readers understand the background in investigation and the diligence with which you exhibited in your work. Obviously, the work in the Senate, O.S.S. and various other cases should be given attention.

As to Kennedy, Warren Commission and subsequent work we shall be more specific and dig right in. This should captivate both the learned and the layman. Too m people have glossed over the

real meat of the matter for quick
fix style silly conspiracy theory
babble. Harold, Sil, many an
average folk ask me about the
truth about Garrison's charade and
the Oliver Stone quasi ego documentary
J.F.K.. Most are somewhat shocked
and disappointed to hear that I only
see one positive point in Stone's
picture, and that is the renewed interest
in the event, not the movie's content!
I want those who are interested to hear
it from you! I want recollections of
dealing with Garrison, Alcock, Bethel
and the other cast of characters. Let
us touch on what really happened from
Gardner to Harry Connick Sr. What
exactly did Garrison have? What did
he not pursue? Such as the pamphlets
being picked up by a separate person other
than Oswald? Was Marcello involved at
all? Was Russo ever in the company of
Ferrie, Shaw, or any of the so-called
conspirators? What is Harold Weisberg's
idea or view on 544 Camp St? Was
Bannister's boy Jack clued in to anything?
What did the Anti Castro cubans
do with Bannister. Who really was
Mas ferrie? What went on if anything
at the Reilly coffee company?

Harold as you are seeing,
there are many, many questions on only
one facet of your work. We still have
Warren Commission, FOIA battles, F.B.I.
& dealings

Cesars work, Hunt family, particularly Rothemel, ~~John~~ Johnson, Bobby Baker Billie (Lied all day) Estes. Marina Oswald Marguerite Oswald, Robert Oswald, Earl Ruby, Zapruder, Willis, Tague, Wachs old Jean Hill, Dallas police, Doctors military intel. Sippit, and of course see Harvey ~~him~~ himself. Harold, allow me time to construct this. You will have total control of final draft.

Also lets look at Fensterwald Ray, Rays makeup (psychological) at all aspects of the case lets look at Dwyer the judge and the personal threat you received. Lets explore the paranoia surrounding the cases. Cant forget My buddy Nick Katzenbach - ha! ha! Finally lets look at others - and their work or lack of it, the poseurs, the pretenders, the wachs. Then lets talk about where it is now. Your health, both of you. and what you've gotten from your lives! too much to ask for?

By the way Garrison did not come up with David Sanchez Morales name a tip came in. He blew it! Harold this man was a valid right wing nut! He definitely whacked Che' Guevara and allende' along with others. He admitted complicity to his lawyer twenty five years ago in J.F.K. His resume is frightening! no conclusive evidence yet or probably ever.

Call ya soon Love Tom Weaver

What you outline takes much too much
time, much of it deals with what are called
theses and I have nothing to do with them
besides which most of them come from people
who have inadequate command of the
~~of the fact~~ of the subject
matter. Will be glad to see him
but only on the established fact
He is still writing altho he has
less time for it
