Frederick, Maryland 21702

Dear Harold:

I would be happy to talk with your friend, Linda Hunt. Please tell her to call me next week at my office - (412) 350-4804 - or at home - (412) 521-2881.

I was sorry to learn that you had been hospitalized for two weeks. I hope your condition has improved, and that you are having much less pain and discomfort.

I would agree with your wife's orthopedic surgeon. There is no sense in doing hip surgery on a woman her age, unless there is a strong likelihood that much improvement would be gained.

I am anxious to find out what you think of Hedgecock's theories if he does travel to Maryland to meet with you.

Take care and don't push yourself too hard.

With best wishes.

Sincerely,

  
Cyril H. Wecht, M.D., J.D.
