

1/10/68

Lou
Moo,

Dr. Cyril Wacht changed his plane reservations so he could be in New Orleans on the 17th, to confer with Alcock or whoever, in advance of his testimony. I had asked this of him after Moo spoke to Alcock. I had then expected to be in N.O. before then and would have met him with whoever would have been sent.

This is to give you his schedule so Lou can have someone meet him. He will be on United Flight 327, arriving at 11:18 a.m., Friday, 1/17. He had wanted to meet me, as I had him. He arranged that before his testimony, if he do not meet any other way, he will get there early and I will have the documents he has never seen for him to examine. I have, in a way, discussed this with Moo.

I believe he will be a really powerful and influential witness, esp. on conspiracy. If the other side confronts him with his appearance on the four-part CBS Videotape, he will slaughter them, for it was edited to make it say the opposite of what he said.

You got a good - a really honest and straightforward story in this morning's Washington Post on the order for the hearing a week from today. It was about three inches deep and four columns wide.

Now that it appears + will not be needed immediately, if I can scratch together the necessary scratch I may go to New York with Bud Wednesday, each for different reasons. I have some legal needs to look after. Is there anything you might want me to do there? I could stay over, whether or not Bud can.

Sincerely,

Harold Weisberg

P.S. because no one will know the other, I asked Dr. Wacht to be at the United Counter to answer a page there.
