

11/25/69

Dear Cyril,

Hasty acknowledgement of your kind note of the 21st, which I'll also communicate to Bud.

We are breaking my actions into two phases, one dealing with the suppressed King/Rey case, which will be filed closed to immediately, and the other with JFK, where we are proceeding with more painstaking care. However, it should be ready not far in the future.

I now have in my possession what is, I think, even more completely beyond belief and more utterly destructive to the official posture, story and the integrity of so many involved than anything else, including what I mined from the panel report. I do not want to mail it- and it is more than one thing, being several that dovetail with utmost perfection. I again remind you (I'm not pushing) that if you are ever near here you should glance at some of this, for you have a technical knowledge none of us has and if you have time to ruminate it may be a better cud than if I chew it alone.

I also would like to ask a simple favor of you. I would like copies of the human skeleton with the bones identified, front and back, but small in size, as you might use in teaching, say on letter-sized paper. I could also use one such of the head alone. My immediate interest is in the chest, fore and aft, and I'll have secondary immediate interest in lower-face-scapula area. Both cases, not only JFK.

Bud and I have pretty much agreed on the medical aspect of the case, the part in which we both want to use you. It is the other things that we are still working on. There is one final decision to be made on the medical aspect, but I anticipate we will resolve it at our next meeting.

Best,

CYRIL H. WECHT, M. D., LL. B.

FORENSIC PATHOLOGY  
LEGAL MEDICINE

21 November 1969

Mr. Harold Weisberg  
Route 8  
Frederick, Md.

Dear Harold:

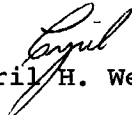

Thank you for your letter of 7 November 1969.  
I believe that your evaluation of Finck is  
essentially correct.

I am pleased to learn that you are continuing to  
build up your case and that Bud will be your  
attorney. Please keep me posted and let me know  
when your presentation has been fully planned.  
Then, we can consider the possibility of my  
testifying in your behalf.

You certainly have put in a formidable amount of  
time and effort in this tragic and almost unbelievable  
affair, and I only hope that you meet with some  
success in the future.

With kind regards.

Sincerely,

  
Cyril H. Wecht, M.D., J.D.
