

7/28/85

Dear Henry,

Penn Jones, Jr., Midlothian, Texas, can or could supply an 8mm version of the Zapruder film for about \$10. Send him with it a copy of the story emphasizing your youth and do not mention my name. He thinks I'm a CIA agent of some kind because I have opposed some of the utterly irrational things he and others have done. He is a fine human being who has just gone bananas on this, not uncommon. His work is not dependable and often is irrational. If he does not have the film he should be able to tell you how to get it. Just tell him you heard he has copies and you would like to buy one. He used to have both Nix and Muchmore and if I'm not mistaken, had them all on one reel.

My own copy is not suitable for copying.

Generally speaking I am willing to take time to be of help to others. Right now my ability will depend on when. I'm trying to finish up a book, I have an enormous amount of overhead work, like answering letters and mailing books, and I'm tied up in two court appeals. So all I can do is express a willingness. You may pick a time when it is impossible. So, call first: 301/473-8186.

While I'm writing let me tell you how to get here.

It depends on where you start. Generally Exit 16 of the Beltway is best. If you are in South Baltimore take the Beltway to it. If you are west of the Beltway, take US 40 West. They all become one.

If you start at Exit 16 you'll come into ~~the~~ I70. It will merge into 40. The numbers change but when it remains 40 before Frederick, thereafter stay off of the new beginning of I70 at Frederick. 40 joins US15W at Frederick and leave it at Exit 6W. Before you get to this exit you'll see a Holiday Inn. You go to it and at it turn right on Baughman's Lane for about 1/2 mile. There, at a 4-way stop turn left onto Shookstown Road for about 2 miles. After you start going up the mountain, the first road on the right is Old Receiver Road. Turn right on it for about .3 miles and we are in a patch of woods there. On Old Receiver there is a poorly-marked fork. Stay to the left at it. You'll begin a short steep downhill S curve right after the fork. The patch of woods on the right after that is ours. When you are down in the flat after this curve you'll see a large mailbox with a white Washington Post box on the top. About 2 carlengths past that, on the right, is our lane. Drive in.

Best regards,

Mr. Harold Weisberg  
Route 8  
Frederick, Maryland 21701

Dear Mr. Weisberg:

Thank you for the books (Whitewash II, III, and IV) and your effort to have them delivered promptly; which they were. They are very interesting. I am not quite finished all of them as of yet because I want to digest every bit of information contained in them. I plan to purchase Whitewash I sometime in the near future, however, as of now I am not in a position to buy it because of certain financial problems; school and the sort.

I have a question which you may choose not to answer for obvious reasons. I can understand your reason for not answering it if you do not, so no explanation is needed. Do you possess the Zapruder film? If so, is there any possible way that I might acquire a copy from you? If this question is out of line I apologize, however, you seem to be my last chance in obtaining this film. I know of no one else who might have the Zapruder film. You know of the importance of this film so you can see my reason for wanting it. I understand that the cost would be high but I'm sure that in time I would be able to meet that cost.

One other thing. Is it possible that in the future, a teacher from McDonogh School, (who I took to the Archives on one of my visits there, and who is likewise interested in the Kennedy assassination), and myself might be able to arrange a visit with you at your convenience. I am as anxious to meet you as he is. Thank you very much for your time.

Sincerely,

*Henry J. Wegrocki*
