

This card out of ^{the} blue is a
result of a suggestion by Albee
bornoway of Denver in Texas. I
first greatly admired your book
since I first discovered you
Tease Open in 1994. I appreci-
ate the care and dedication that
went into Whitehawk and I was
acutely sensitive to the anger
that helped to produce it.
I am not a researcher, but I
have read a great deal about
the assassination and other events
that cause me worry about our
success as a democracy. Thank
you both for your help in opening
so many eyes.

Sincerely yours
Jay Smith
