

Thursday, Sept. 10, 1936.

Dear Q-C:

It is being said that another battle will be had at the next Diamond match meeting, to try and have the Local sanction the picket line at the gate to stop all those who have no union Book. This is because the Rank and file think they have received too much of a set back in their organizing drive due to the Notice posted by Management last Tues.

It is understood that the membership of the Insulator Local are not well pleased with an item that appeared in (The Observer) a paper put out by the Ohio Brass Co. They say it tells the truth but not the whole truth, and they plan to put out some sort of hand bill to refute this article, they are to have a committee draw up this hand bill tomorrow A. M. and will print and distribute them in Mansfield as soon as possible.

It is understood that a drive will soon start to organize the 130 employees of the Rubber reclaiming Plant on Norton Rd.

It was understood that the Yoder Greenhouse employees held a meeting tonight and only had about 30 present and only ran thru a very short meeting tending to routine matters. It was also understood that the Chemical Workers held a meeting and had about 100 present. It was said they did not do anything important tonight. They recently got some special envelopes that just hold the due books and they plan to have the members insert their dues and books, seal up the envelopes and then leave them a designated place for the Sec. this will facilitate due collection so they claim.

This was all that was picked up today for Barberton.

Respectfully,

M-10
