

December 12, 1936.

Mr. H. D. Cullen  
National Labor Relations Board  
45 Broadway, Room 724  
New York, New York

Dear Mr. Cullen:

The spy list you mentioned in your letter of December 10 to Lind and Lodish was entered into the record on the second day of our hearings. It was identified and discussed at length by two witnesses. During the course of the hearing quite a few of the persons on the list were mentioned in the testimony.

This list, of operatives of the National Corporation Service, of Youngstown, has been a public document for almost three months. Galley proofs of it and the testimony pertinent to it have been in the New York office for at least two months. I am surprised you knew nothing of it until it was mentioned by Blasler.

Very truly yours,

Robert Wohlforth, Secretary  
Subcommittee of the  
Committee on Education and Labor  
Under S. R. 266
