Dear Mr. Weisberg:

Thank you very much for your help in making the fifth annual Conference on American Civilization a great success. Student evaluations are showing the Conference to be the best ever.

Your discussion group on the validity of the Warren report was very much enjoyed by the student delegates to the Conference. We appreciate your taking time out of a busy schedule to conduct the seminar.

I was personally very impressed with what you had to say and find a great admiration for what you are trying to do. I am looking in the papers daily for stories relating the progress of the investigations. I was glad to have had the opportunity to both meet you personally, and listen in on your discussion group. It was a great honor for me to have been able to talk with you.

We of the steering committee for the fifth annual Conference on American Civilization are proud to be able to say we provided the opportunity for over nine hundred high school students, to exchange ideas and participate in an educational and social activity. These students join me, I am sure, in again thanking you for your time and help, and wishing you the best of luck with your virtuous endeavors.

Sincerely,

Bob Sirkis
