

^{Kobryg. P. 104}
Hear Atty, 10:40 11/30/71 his Republic Bank effects
4600

Has files and a display at SM 4. Thinks to keep
transcript of the evidence used at 1/24/64 meeting but
I think unlikely. He indicated transcript done with "think".
I can see what he has in c. Personal files on the
FBI... Referred to Danison as "Lee". Thought woman
was court reporter... Has a says he has no clear
recollection of what they had except the essence of the
report, but perhaps the sum (P. R. says \$200 is about
right for such an S.I.).

Rather than OSS says was used to organize
AF Intel. in Fla after return from Muenchenburg.
Refused to go to Japan at request of Hep Knolls
deputy, & had similar request from Justice Jackson.
But if this was after Muenchenburg as to said what
was Jackson doing? Did it he have top Muenchenburg post?

I tried to get him to offer
AF Intel. model, wanted him much, but said they
defer to Jackson. He seems to have avoided both.
He speaks at a.m. at Lee office. m.s. of D.M.C. as
he did 3 yrs ago. Remembered me, apparently in a friendly
way, for he was cordial, as he was with S.M.,
when he also offered me lift in heavy van/Buck
was picking me up). Had Sec 5 on 4. Mrs Cullum
was open in hospital. Mrs Blakeley Temp. 2/1/66 -
mint

AF assignment on Intel. organization started when he
was sent to Fla. from Germany. He failed to indicate any
OSS background & didn't deny it when I cited a Commission
memo of some kind, I think by Roubin, just avoided response
direct or indirect.

One thing that seems to have impressed him most is
the job done on LHO. He believes LHO renounced his
citizenship & that he made a serious trip to the
Embassy to accomplish it. Calling diplomats back from
abroad - he said LHO in America & Japan - USSO memo?

to impress him, perhaps the idea being that there was nothing he or his firm could do that is didn't - that it was purely cooperative. Hearing LHO's words on the record also seems to have influenced his thinking. It is clear that he is an anti-communist and that he seems persuaded LHO was a true, dedicated "red".

He was in DC on this more often than the 1/24/64 meeting. In he thought aloud on that point ~~not being~~ distinguished between when money was with "us" and when he was not. ^{salient}

Perhaps the most ^{salient} single thing is how little he seems to know. It is ~~not~~ not sensible, for he is ~~not~~ alert, sharp. But fact is clear in his discussion, and the one impression I got is that it was enough to that LHO was a "red". In his mind I got the feeling this fit everything else fall in place. All the official story thus become credible & satisfied him. I have no impression that it failed to satisfy him in any way. But fact is something not in his discussion. He seems to know little or nothing more than the general public. If he does it didn't show.

From this I get the feeling that the members of the TCI did little or nothing, knew little or nothing, and served a mere figure head role. If he does anything in his law office, and his is a prominent firm or anything at S. M. U., where he spends the spare half of his days he hardly had time to do any real work on the TCI and at most participated in on the most general discussions, if any.
