

71 Paul R - Texas Club Wild Hair getting recruited by
as FBI CI. ^{right hand} ~~disciplined and transferred~~
N.O. while his ~~best~~ ^{right hand} ~~in~~ ^{the} French quest or, inc. subvise
investigation. PR doesn't know reason for disciplinary
shift but it seems to be serious. PR was told that when
Ruby shot LHO the files were destroyed and new ones were
created. Apparently this was the pretense with anything
that could have embarrassed the ~~the~~ Bureau in its
own eyes. Ruby was a Dallas office CI. He would have
been known by a number beginning DL and
ending with a C. Had he been a security informant
it would have ended with an "S". The first step is
"potential" represented by the letter "P" a ^{potential} ~~potential~~
security informant would be a PSI, or more PCI

Hoty would not have left nasty notes for LHO
because they would embarrass Bureau, which would get
him fired. However, he would well have asked phoney
questions designed to defame Marine. PRs fear that
hot up when I told him that story. At abundant practice
and o.k. - would not embarrass Bureau

There was a CIT company front on Elm, but PR
does not remember its name
