## 12/9/71

Dear Bud,
The tape recorder didn't work when Jin mot tue, and I was still too upset about a ciling-zero landing after an hour of stacking to think that I had two with ne. So, sithourh I can't bojin to type up what I did and who I saw and what I Ioarnod, I'll try and rumember a list of poople based on which, should you so desire, you can later question we. It will have to bu brief becauso there is an onormous ataci of accumulated things and I had left too mouny indono when I stertod on this trip.

Arch was the orily disappointraent on it. lie just voulnn't rise to the bait mary gave hi" nor difl ho eet any opontancous itleas when they should have occurred to han during our conversetions, of theh wo had, I fitink, four, one on life tic-tily vocy fact welk (ho was
 - ary suyb). -ary says ho has loosoned sote, which in pired wonder that one could be so tight even if broke - nd she thintes ho is worth 50 nillion. I havo Iittle doubt that if he can be inspirod, mary will try it. I also think there is little prospect.

Until I have a chunce to liston to the tape of ay first noeting with Jirvio, there is nothing I can add to what I told Jin and the enclosed. The second day at br shy there was a sit-down, so no prtsoners verc soon by anyone, and the third it wa not posaible to tape, for we had to mout on the bonch in the hall. He took what I had to say with equanimity. I do not lnow if he has contact wit ruelity on his situation. He did say that soneone, apparentiy not Stoner, is wording on his lead (ho pr tonds ho doesn't renember a second phone number when I ruinded him'. He also promised no that he'd send thic to wo whon he gots it, through Jerry.

I opont on hour and a half with Ghildress and one of his reporters. Good. Witto with tho editor-publi her of a cluin of seven wecklies, Paul Page, who not me at Gak lidge the second day. We had supper together. Whildress has retumed the Canale tape I loaned hitrie I do not know if lage or Yarborouch dit storios, as thoy were supposed to. There was a hot mayoral caupaign. I was on ATE IV nows and radio, and the radio was fed to other stetions (Bill vo her). A telk show wants me then I an thers again. Who notion that Menn. was on trial nore than Ray was well roceived, as was tho concept that Warhington had screwed Tennessee.

Dob and Wayno met me at the airport in Hemphis. We chatted betweon planes. Both look eood. 'there was not nuch time. He had a drink and that was about it.

Bithar llew Orleans or Dallas made the trip a suecoss. I concontratod ori wiat has cone to be called "the other side", with considerable success, Althouch in looks a bit better than he did whon fedcrolly chargod, ho looks itike hil. (Only Bethell, who lou ed up on evening of inquiry by accidental armival in Larry Bor nstein's Vaucressin Creole Cafe, looks worbe. Hon also has beon assisted by the Stern boundation.) "im says ho has hoopital striph and that the procnosia in that it will take a yoar to mun its course. He was friendly, is not unfriondly to you. I didn't lnow he wa, in the office, but he was, and alnost ats som as I got there he asked the in. He then suid wehd have to havo a food trench lunch, but we conpronised on the Plantation foom at the Hoosevelt on Puesday $11 / 30$ hon he dirm't want to $\mathrm{c}_{\mathrm{C}}$ out in daup weather. Thore is no visible interest in the assassinations. Lie is off on another Vince Fiak, an over-sinalification based on a misunderstanding of the Pontagon Papers. in it tho Cla is cood guys and the military bad gws. He is still lunc up on Vince. oo told in: they had amost literally fled vew sork Last fuhnlag ving and stoped at inoe's - so fost that jin ledt the hotel without peyinc his bill, which he later did by aail! (he apoars not to have my relish for a gangup on the clectronic ne jia.) I dif got what is repregented as but cannot bo the NOPD -ntelligunce unit filles on Fermie and hilo. They are nostly clip in se I've loaked then to wary, who, witt wreh, has predictable interest in the IPCC, which, for the wost part, they are, in clip ine forme and I cot somethine Jin wns gent anonyour ly fmm Dilas, hat seems to be an Uffense heport of a fracas at Hrs, Bledsoc's involving a former $\bar{H} \Delta I$ han namod Grant, Jack lubanstoin and Alex ifidell! a Dillas deputy sheriff, to whon I gave a cojv, will check it out. I'IL brine it with we whon I ar: next in DC, for I havo to check with UPI on it.

UPI ballas did a story on it, but their files are boxed in the basement and too hard to zee. They drid Washingt in or hew Yoris could chock oastier, and I know sevoral poople in DC. It is so rat I'dignore it wore it not for the ap aront UPI story (retyped and acomplete). the fisI' 3 nane its urant. I do not recell it.

## Let ne List "tho other side", N.U., as best I recall:

Cecil Durclass (Karcelio's lanyer on business anttors); Larry Bormstein (who, from ndepondent checks seens to have an association vith hot noney); Dasn Androws (wwice); Honk alaon (gour tiwes, twice at his invitation and twice by accident); Ben mith (special" prosecutor in the sitata caso- I soucht hil out because he ry prosented niany of Luander Perez' enomies, on the limiay befor the $11 /$ ge hearing at which he was formally appointed - and I've adiel jis ank Ivon for copies of all rel ases, hance have none to date.); Sal lanzoca (let's

 Canada - on the feds don't oven tall: to Carrison'e of 'ice, whoro kary wheolor h ndles nares casos); and other who, in the confusion and faticuc, do not cone to ifind. I was ablo to make a few 1.0 , notes while I was there, nights in tho notel. I also spoke to mog Oser, Ivon and others, fincluding Pena, not properly categorized ass "the other side". Ivon is buiter than ever. koo has won 11 straitht prosocutions and hadn't, ho says, spoien to $J_{i n}$ in $\mathbb{Z}$ months.

I think vim will drop tho thomley and probably other cases. I did not interpose any opinion. Panzeca says they are serious about the Shaw civil suit and I told hish that while I havon't Eivon it to Jin for the, perjury charge, I think I have what will whip thom on this civil case ( KOO , to whom I dion's givo idontifications, agrues), I will give it to tho Mex people. Whon he pressed me for details, without telling hin the proof or th more sarious, I told hin only that shaw had not quit but had been firod and that cobb had dono i:, porsonally. P. is sutisfied tint tiasso and Osmald had net. He has no mor faith in that Ferme embellishment than I do. I also heard that $\# .00$ hai known Russo before ho wont to Naton Fonge, to soe hin: but ajdn't have tine to sak him. (1.00 also know Ferrio from the lakefront, or didn t you lnow?) Sal has two rotebooks of stuff on fusso that ho djdn't use. I do not know what'it says, but I think I could cot it when I an back there agnin. I think we should have it, but I couldn't aak for it while there is ponding litigation and I couldn't poy for the xeroxing. Only Jim's persongl slur ("that insignifficant little Dago bastand" - any one of which would have turnod the dinimutive man on) kept hin in the case in which he (lid all the out-of-court work. wall thinges axo so bie!

I'll not here go into what 1 loamed alout the oase(s) against in. We oun tolls about it better then I have seon subsequent roporting. I had wany sourcon, including thos to whom the fodo han leaked. It may intorest you and sone of your Iiflli Domocrat friends t at the indict ont of fomer U.S. Att'y Lowis LeCocur was s. iously considered. Ben winth imeilately spotted what I had ivarned lou about, a nalfeasanc rap, th only thing that seoms tenable fro: the icubuctuades affidavits. For all of what I take to be lecal insenity in the Siato case Jim takes pers nal credit!

I located all the placed in the noten he identiffod as 'humpson's from NaCP (I don't believe, fron what I leamed in Dallas fron Earl Gola) listod in what iay hgave mo except two. One of those my barcs contact thinks may well be wt. Claude, but by the tine I could get to hin thore wa bar ly tine to get toacther with Guy, who is separated fron his wife -who didn't tell 50 -and who r presents xassedi Boasberg in the pinball cessos. So, I couldn't check the possibilities of that out. If I didn t give $d_{\text {in }}$ a copy of ny nemo on th addr ssos, I typed it in $H 0.0$, and when $I$ can cot to filine it will separate a copy for you. Onc is possibly excitin, 1808 Carondelet. I have picturea of all, aomo still in the comera and sone beind procesnod alroady. Despite Ivon's opinion that there seens to bo no sicnificanc, the adciressus do seems to cluy ter. If I didn't ive you or Jin conse: of those pages of the 'L notes, 2, the know and I will. I have thom, having nade thro for this tripe Juik profonses igrorunce. (he did seem nilldy int re tod in th new Forenan poop, and I think that after the fax soason, when I do not have to tule lal to dolly wom, I should see tho lawyor in tho new liavon case, with whom I have established contract and botton some of the files.)

One of those I foreot is Davic thandler．He was friendly，ifldly helpful，and I expect hira here for a weokend soon．Fie in doing a book on the Nafia．

Lvorybody akroos tiat＇arcullo hat never had anything to do with tho hard stuff．There is some belfef that another family might have arrauged thinge to thite it louk like he is involved in what interosts us．Burglas：says he belioves not oven the fods ould fo for that．lie sigus． I have no way of inowing what he rally thinks．Naybe he is aincere．He thinks in＇s federal trouble is now over．＂he says．（In the assault caso，he also says the FisI report doom＇t evon plloge that the acent claining to have boen struck was hito）

When Duvid is here I think it wiser to foed him to Baker through Larry finley ratier than through oithoryess of us and I have discussed this with Lariy by phonc．David can be mor holpful if he is disposed to be．I think ho may yet decide to bo，he have always had a not－infimendy relationship．He readiy aocepted my invitation to wo kond hero．lie vill小⿺辶

Some of those I sam in Dellas specified confidentiality and sone should havo．＇hiss also serves our interest if they are to be sources in the future，hich is lawontably lone， au It now looks．I meroly list to becin ith：Henry Wade；Mllen Sweatt；three Parkland doctors；two（largo）bank vice－preridants（inacine！）；Dean Storey（Iezas wourt of Inguiry）； several modia people（HBMP－IV asked ne to appear and used 200 feet in two newscasts）；several other deputies and police；probably others．I syont two days goine through files I wais able to owen，but that pormitied merely a glimpse．I was able to have tary accepted as ay confi－ dontial socretary，and on a basis of confidence and that it in for we she vill $b$ able to go through these nowe deisurely when she has time．I have leamed ruch nore avout kuby，sicker than I＇d thoufht，and now have seon some DPD reports that I hiven＇t seen in the frchives or the Library of Congress microfiln．in account of ．uby＇s tastes and practises had best be verbal．
＂ol and lecombry retured ine－lifer，was friondy and ay bo holpful．he had some sufcestion that ray in time be of use．

Found two＂buffs＂in Dallas，possibly liburdl．They took sie to lunch，but suened to be ducioins rectinc kary．

Sue and I are frionds．She was of some help in transportation．ioxley wanted a confrontation which he used as less than that．It kopt liary up too lato and，I think，dis－ comforted hor a bit when he adnitted he had no real case，only the beginizici of an inve tiga－ tion at tho tine JG was about to use it，as you know．He clained not to know thiss and to have ben ofrai for his life．Hary＇s knowlodice conen from him，but she told me beioro box onme that Jool Falmer tole him tho office was going to kill Bill．Ho seoned anoioun to pove，es I think he didy that once upon a tine ho ro lly did work for the GIn．I hadn＇t belioved it． and it doesmate e wonder a bit about sote 娘 of the nonses about wifich ho convinecd Jini． Paul R．had some interesting tigness to sey，but thoy con wait until we noct．wout Ruby as a CI．linxy is unvell，but I don＇t know why Buck seems to be intent on taline her to the doctor，or had thet notion whon he took me to the airport（I didn＇t rent a car in Dallas becuse it was cheaper not to．）We both think a combination of things，including tensions and her forgetting to take her thyroid after that lone nitht wi th boxley moy be part，if notril． Jimay Lee＇s gilence really frightened her．She had expcetad to be callod to Gormany moncintarily． She wanted to be there for the anticipated Caesarian．But there was none，in the last minute， and hay is overjoyed that the ainost－six－pounds new erandanghter is naned tary Lizabeth！ That is when she wopt！She and buck，who aro not well off financially no as a consequ nee of more progony expense（this time innocont），arc plauming to to to Gemmuy ass soon as they can rabe：the arrangerents，wen ing both funds and otting tine，for both．wary＇d firm and the parther for whon slu works are deep into enornous litigntion．Despite this she wacn＇t woll nouzh to fo to work，the lust two days I was there and stayed in the house the last， a maturday．She also didn to to the airport nunday a．m．．．．．．evens toint went well，as it had With the others earlicr．A numbor soened to rocard sone of the earlier presuntations a bit farout．Not $\mathrm{Jim}^{\prime}$＇s．．．I＇m pratty sume I spont less than we estinated．I＇ll rofund after the charges are all in．
wowothing duvoloped with ig car. Does any of thiswoan duythine to you? I got into it enki it startod j. ediately after fin dobriefed a. so ensily I precun you ran it periodically. Dut it guemod to bo havy whderfoot. and it got excespiv ly hot. liesther lad hap enedbofore. I dion't rulize tilis untill the ixway. By thon there wa: jo cohenc to stop untill I wes past the I70s construction, at a out the Washinctonian hotol. Whon I nilifte into noutral from drive the car kopt goint, and it was soon capparent that in noutbal it was rally in drive, hones had been in socond all alonc whon positioned in chive. I then Lopt going, an. the tomperature indication continued to riso. Sy the tine I was at claricsburb it was at the boiling mark. I keyt goint because Lil's cousins have the Pontiac agency at Hyattetown. Howovo, they hat ovod to a place thoy were buildinc when last + had beon there. This wasted stop required that I shift ...to reverse and lo! therevftor the shift indications batohed tho ruality. and tho co was not hot. Wo could remove tho radiator cap by hand.

 Thers is, ais yet, no explanation for this automatic trouble. Ijis a.le, the Iir.t tinc I'vo beon on the car since gettine how, the sare things. And the sume retum to nomal in tho autonatio once the thine wamod up. Until then Drive wa second and Noutral was drive. So, I'm wondering if anythinc hapoend whon you roved it, etce, that could explain or sue eat why these things h picned when the car was not in use. In 95,000, I've not had to make a single repair. Only nomal maintainance. No oil use even!

If you recall the $11 / 15$ I dter to Ducene I wanted you to ap rove before I mailed it, the onclosures, his response and sane to it, indicato uc may eet this stuff if you winte him tolling him that wo are, indeed, purcuing Ray's desirms. Please road y 1 ttor and see if you abroe that we reelly want and need everything he has. He can't know the zo moaning sone letters con have. Because I was sonding a copy to $u \mathrm{im}$ y I made no roference to the silencer. I think you shoul ask him for overythine talcen from hin by the vobbies and tell hin ir nilly that the prosucution is rivasing to ive anytine fre her than ye tendav's meat. It ought not hurt to put bugone \& co. politaly on, the spot. I don't belicve the explanntion dimy gave no for the tiloneorplans, so I dion t want to go into apocifios.

I haven't becun to catch up on the mail yet. How ver, I felt I shoula make in ediate response to "ob's interenting project tracing tho alleged Lhio weapons. It is cnclosed in case you went toread it. I think it is a cood project, if I lack confidenoe in the beci ining With what I regard as unlikely, the orphanis on explosive or other arcane projeotiles, which were entirely unnccessary when nomel cona roiki rounds were nore thin adecuate. ob is welcome to go over ny eatengive files on this stuff. I therk if he is goinc to so further ith thi: he should and that he should then consult with Hoch. Taking on arpoct of gignificant ovidence: or missinc ovidonce liko this is hictoricaly, if not incociat ly, quite morthmile.

Please toll $\mu_{i l l}$ I'vc heard nothing from Giterbridec a Di nstfrey. shy now naybe ill has roal hat 1 avo hin. Aftor the car is out of the ghop, when he has time, I'd like to talle t linn about that. Nad ank hin to consider whether the Belin piece, which I haven't resu yet, does 't bear on malice, whers ho , thet is dill, coesn' tyet have the entime rocord. That may be an opon back door where, as with th: clothin pix, a defeat may be a victory.
Best,
