

FOR IMMEDIATE RELEASE

On Monday (November 13th) from Noon to 1 PM in the GAS BUGGY ROOM of the JACK TAR HOTEL - the Bay Area News Media is invited to a cocktail reception/news conference (multiple/double choice) for Warren Commission author-critic Harold Weisberg. The Author will reveal startling heretofore hidden and unavailable facts about the murder of President John F. Kennedy.

Weisberg is the first of the published author-critics of the highly disputed Warren Commission Report. His previous works are: WHITEWASH: The Report on the Warren Report; WHITEWASH II: The FBI-Secret Service Coverup; Photographic WHITEWASH: Suppressed Kennedy Assassination Pictures.

Weisberg's latest book - OSWALD IN NEW ORLEANS: Case for Conspiracy with the CIA - has just been published and released; this phase of his writings is actually an investigative "blueprint" of the forthcoming "Trial of the Century" of New Orleans District Attorney Jim Garrison. (Garrison's recent PLAYBOY interview presents a broad outline of the case.) Garrison has written the Forward to Weisberg's book, whereby he sets the background scene for the book's contents.

Weisberg's literary position is straightforward: That the Warren Commission's own best evidence - purposely ignored and/or obfuscated by J. Edgar Hoover and certain Warren Commission Associate Counsel - completely and irrefutably invalidates every major conclusion of this Presidential commission. Mr. Weisberg is prepared to name names and produce material evidence from The National Archives to backup his contentions.

It should be noted that one-third of the overall "investigation" of President Kennedy has been sealed in The National Archives for a period of 75 years. If Oswald committed the crime alone and unassisted, what is there about this man that must be hidden from the news media and American public for three quarters of a Century? Weisberg's OSWALD IN NEW ORLEANS goes a long ways toward explaining this as yet unanswered question.

Mr. Weisberg is a most candid interview; Bay Area newsmen will be afforded an opportunity to "open a can of worms" too long delayed.
